CHAPTER 1 – MAYOR’S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A:

1.1 MAYOR’S FOREWORD

This annual report draws a curtain on the financial year 2018/2019 which accounts for the performance of municipal departments as per the adopted SDBIP. It reflects the key milestones achieved in its quest to improve service delivery through the delivery of accessible and good quality services. Most importantly the report also reflects on the municipal limitations and constraints encountered during the reporting period which will have to be addressed going forward in an accelerated manner. It is of critical importance that we learn from our achievements as well as from our oversights and limitations. President of the Republic of South Africa, his Excellency Cyril Ramaphosa delivered his first State of Nation Address (SONA) 2019 of the 6th current administration on the 20th of June 2019 under the theme “let’s grow South Africa together as we celebrate 25 years of freedom.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Job creation, devastating changes in global climate gender violence remain the challenge confronting South Africa. This again was emphasized in the State of Province Address (SOPA) which noted setting in infrastructure district council coordinating to assisting the youth in agriculture, mining tourism and sustainable energy. South Africa's economy is ailing, we need to advance means in which we ensure that our economy is restored. An LED Strategy has been developed which identifies Elundini as a major agricultural hub.

Section 26 of Constitution states that everyone in this regard is entitled to human settlement to achieve the progressive realisation of the right to adequate housing, in this honour about 10 083 housing needs have been met within the municipality. About 14 204 households had access to free basic services. Our capital projects include 202, 55 km roads maintained which not only has improved service delivery in the municipality but has also created numerous job opportunities for the locals. In light of the 2018/2019 financial year the political, administrative and financial units have faced numerous challenges. As there have been several political seizures in the council which ended up hindering the administrative unit in the Municipality.

It is with great pleasure to announce that the municipality for 2018/2019 went back to its former glory by receiving unqualified audit opinion from the Office of the Auditor General. The same way we fell from glory is the same we came back and restored our dignity and pride of good governance. The Book of Proverbs 24:16 says even though "a just man falls seven times, he rises up again." We are grateful that in our falling we were able to rise up again and we have learnt a lot from falling. The trust that people of Elundini have placed in our municipality cannot be betrayed. We will spare no effort in ensuring that service delivery is continuously enhanced.

As we leap forward into 2019/2020 we do so filled with a deep sense of appreciation of the challenges that lie ahead.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Cllr N R Lengs
Mayor
31 January 2020

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

1.2 MUNICIPAL MANAGER'S OVERVIEW

During the 2018/2019 financial year, the performance of the Elundini Local Municipality plummeted to 58,6% (2018: 80,8%). Whilst this level of performance is a drastic decline compared to the past two years (2017: 87,5%), there are several factors which contributed immensely to the status quo. Firstly, Elundini local contractors, disenchanted by the perceived absence of a commitment by the municipality to afford them procurement opportunities, closed a number of sites, predominantly in the Mt Fletcher area, and this stalemate subsisted for a period of approximately four months, thus making a serious dent on the attainment of the performance targets. I am pleased to inform the general public and all stakeholders that the pain of four months birthed a concrete strategy for local procurement, which has got to be the most progressive model for the empowerment of local contractors in the sector, and which is being replicated by other institutions and agencies that currently face a similar dilemma.

Secondly, a decision taken by the municipal council to re-instate a ward committee that the council had previously disbanded, immediately ignited socio-political upheaval in the affected ward, with the target of the protest being the three (3) infrastructure projects which were underway at the time. The delay in finding a political solution to the impasse, meant that the contractor/s who were involved in those projects had to pull out due to incessant threats to their personnel and property, a situation that was stemmed only when an urgent court judgement was granted in favour of the municipality.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

The municipality could however not escape the payment of a contractual standing time penalty of R1,4 million.

Thirdly, the mass of Elundini Local Municipality employees embarked on a wildcat strike, demanding the performance of certain functions the majority of which fell beyond the remit of the municipal council. The strike subsisted for two (2) full weeks and expectedly had the effect of stifling service delivery.

Last, but not least, as a recipient of the integrated national energy grant (INEP), a standard of a cost per connection is set by the transferring accounting officer. With ours being a rural municipality with a mountainous topography, the set standard of cost per connection is more often not applicable, thus resulting in a lesser number of actual connections than were estimated.

This performance comes on the back of a drastic regression in audit outcomes as recorded in 2018, during which year the municipality received an adverse opinion. As a result of the audit outcomes, humongous adjustments were effected to the 2019 annual financial statements (by restating the opening balances to rectify the accounting errors which imported the adverse opinion in the previous financial year). These adjustments, which had to be audited by an almost completely new cohort of auditors from the Auditor General probably not privy to the inherent risks in the financial statements, caused an unexpected delay in the signing of the audit report for the year ended 30 June 2019, which was finally signed and transmitted to the municipality on 24 January 2020. It is pleasing to report that, through the stellar work of management and officials, with the appropriate oversight and guidance by the Audit Committee, the municipal council and other political structures of council, the municipality has turned the tide and achieved an unqualified audit opinion, albeit with findings on compliance and performance information.

In spite of all the challenges in the financial year, the municipality continues to be in good financial health as evidenced by the financial ratios.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

In conclusion, I thank the municipality's political and administrative leadership, the Audit Committee, other political structures of council, the employees, stakeholders and the entire community of Elundini for their support and cooperation throughout the year.

Khaya Gashi

Municipal Manager

31 January 2020

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

1.3 MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

The functions of the Elundini Local Municipality (ELM) are derived from schedules 4B and 5B of the Constitution of the Republic of South Africa, read in conjunction with section 84 of the Local Government: Municipal Structures Act (Act No 117 of 1998). The specific functions performed by the ELM are listed in **appendix B**.

The ELM is a Category B municipality located within the Joe Gqabi District in the north-eastern portion of the Eastern Cape Province. The ELM is bounded by the Alfred Nzo District in the north, Chris Hani District in the south, OR Tambo District in the east, and Lesotho and Senqu in the west. It is the smallest of three municipalities in the district, making up a quarter of its geographical area (refer to map below). The ELM is one of the most scenic and attractive areas of the province, with considerable potential lying in its deep, fertile soils and high rainfall. Compared to the other municipalities in the Joe Gqabi District, Elundini has prospects of significant growth and upliftment in the quality of life for its residents due to its relative abundance of natural resources. The urban areas and commercial farming district are the highest employers, where people have found employment in the agriculture, commercial and service sectors.

The urban areas and commercial farming district are the highest employers, where people have found employment in the agriculture, commercial and service sectors. There are very low levels of employment in the rural settlements. This can be partly attributed to the fact that these areas do not have a strong economic base, and partly to the fact that most inhabitants are involved in subsistence-related activities with little surplus being produced for economic profit. Due to the migrant system in operation in South Africa, the impact of recessionary downturns in the economy elsewhere (such as in the mining industry, Gauteng and Cape Town) have had an impact on the Elundini area. There is still a heavy reliance on income from migrant sources. The towns in ELM are Maclear, Mount Fletcher, and Ugie characterized by vast farming areas in the areas surrounding Maclear and Ugie as well as the Pitseng area in Mt Fletcher. The main economic sectors are social services/government (41%), agriculture (28%), and wholesale and retail trade (14%).

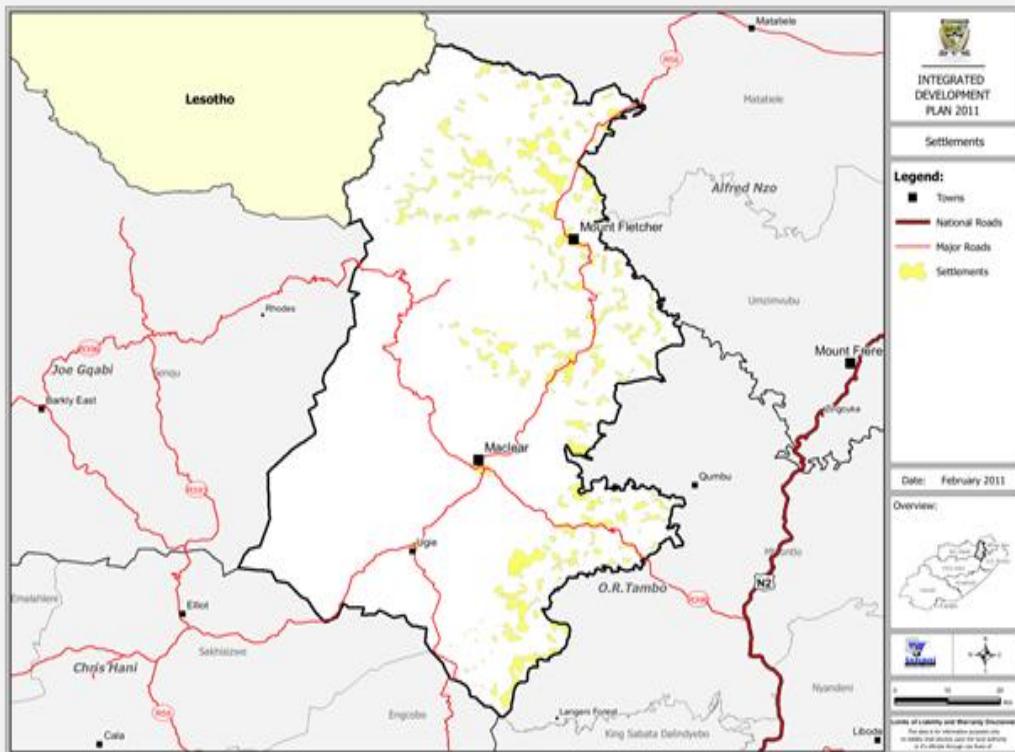

The majority of ELM's inhabitants reside in rural villages situated in the foothills of Maluti Mountains and Southern Drakensburg Range as well as the rural villages inherited through the demarcation process

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

from the magisterial districts of Tsolo and Qumbu. The R56 runs through Elundini Municipal area linking the three towns with KwaZulu-Natal to the north and Queenstown to the south. The main Economic Sectors are Social services/government, agriculture, and wholesale and retail trade.

The ELM covers an area of 5,064 km² and has 17 Wards and according to the recent Community Survey (CS) of 2016 released by Statistics South Africa (StatsSA), the ELM is the most populous municipality in the Joe Gqabi District Municipality (JGDM) with an estimated population of 144 929 an increase of 6 788 people, amounting to 4.7%, from the Census 2011 figures of 138 141 people. The largest population of ELM is made up of females which constitute 60.9% (88 247) of the total population and males constitute 39.1% (56 682) of the total population.

The ELM is one of the most scenic and attractive areas in the Province with considerable potential lying in its deep, fertile soils and high rainfall. Compared to the other municipalities in the JGDM, ELM has prospects of significant growth and upliftment in the quality of life for its residents, due to its relative abundance of natural resources. The map below depicts the geographical area of ELM:

Source: Elundini IDP 2017/2022

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

The JGDM total population has increased by 23 144 people from the Census 2011 figures of 349 768 to 372 912 of the CS 2016 figures. This represents a 6.2% increase between 2011 and 2016 from an increase of 2.3% between 2001 and 2011 figures. From the JGDM total population, the ELM has seen a significant increase of 6 790 people representing an increase of 4.7% between 2011 and 2016 as compared to an increase of 0.5% between 2001 and 2016. Although there has been an increase in the number of people, between 2011 and 2016, in both the district and ELM, there is noticeable decrease in the number of households both in the district and ELM. Both municipalities experienced a decrease of 0.2% and 0.5% of households respectively as depicted by the table overleaf. Of the total number of households in both the JGDM and Elundini municipalities, there has been an increase in the formal structures which were the formal structures in JGDM increased from 60.3% to 69.6% and on ELM increased from 33% to 47.8%.

Source: Census 1996, Census 2001, Census 2011 and CS 2016

Although there has been an overall increase of 4.7% in the total population in ELM, there has been a decrease of 3.2% of the female population and an increase of 6.8% of the male population between 2011 and 2016. The female population in ELM makes 51.7% of the total population and males constitute 48.3% of the total population. In terms of the demographic distribution of the ELM population, a younger population, between the ages of 15 and 19, comprises the largest population followed by 10 and 14, 05 and 09 and 00 and 04 respectively.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Socio-economic status

The table below depicts the socio-economic status, as per Community Satisfaction Survey of ELM during the year under review:

Table 3: Socio-economic status

Socio Economic Status						
Year	Housing Backlog as proportion of current demand	Unemployment Rate	Proportion of Households with no Income	Proportion of Population in Low-skilled Employment	HIV/AIDS Prevalence	Illiterate people older than 14 years
Year -2	21%	24%	40.2%	52%	20%	8.4%
Year -1	21%	24%	40.2%	52%	20%	8.4%

1.4 SERVICE DELIVERY OVERVIEW

In meeting its Constitutional obligation in delivering basic services to its communities, ELM is guided by Schedule 4 Part B and Schedule 5 Part B of the powers and functions as defined in terms of the Local Government: Municipal Structures Act as amended. For the year under review, ELM in delivering basic services focused on upgrading of paved roads; upgrading of stormwater drainage; connection of households to the electrification programme; construction of unpaved roads; maintenance of street lights; collection of refuse removal; provision of free basic service to qualifying beneficiaries; construction of sports fields; construction of child care facilities; and creation of jobs through the municipality's LED initiatives, infrastructure and EPWP. ELM has, during the year under review, spent 100% of its capital budget on capital projects identified in terms of the municipality's IDP.

In meeting the objects of Local Government as dictated by the Constitution of the Republic of South Africa, for the year under review ELM managed to create 1 685 jobs through its LED and social development initiatives including capital projects; trained 95 young people in critical skills development programmes and successfully completed one (1) property development project for the development of Mount Fletcher Mall. ELM has also during the year under review provided free basic services to a total 14 204 indigent households.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

1.5 FINANCIAL HEALTH OVERVIEW

This section has been presented in Chapter 5 of the document.

1.6 ORGANISATIONAL DEVELOPMENT OVERVIEW

ELM's main political and administrative offices are situated in Maclear with two administrative units in Mount Fletcher and Ugie which are headed by their respective unit heads. As at 30 June 2018, the ELM's reviewed Organogram reflected a total number of 343 positions with 291 positions filled with the remaining 52 positions vacant, equaling 15. 2% vacancy rate as compared to the 13.5% vacancy rate in the last financial year. The position of Municipal Manager, all Section 56 positions and other managerial positions except for the Manager: Legal Services and Manager: ICT had been filled. The table below depicts the employee 2018/2019 status quo per department:

Table 4: Vacancies and Filled Positions

DEPARTMENT	NO. OF POSTS	NO. OF FILLED POSITIONS	VACANCIES	% of Vacancies
MM's Office	33	30	3	9. 1%
Infrastructure Planning and Development	63	52	11	17. 5%
Financial Services	43	38	5	11. 6%
Community Services	144	119	25	17. 4%
Corporate Services	49	45	4	8. 2%
Planning and Economic Development	11	7	4	36. 4%
TOTAL	343	291	52	15. 2%

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

CHAPTER 2 - GOVERNANCE

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

2.1. POLITICAL GOVERNANCE

In terms of Section 151 (2) of the Constitution of the Republic of South Africa, 1996, the executive and legislative authority of a municipal council is vested in its municipal council. Section 11 (1) of the Local Government: Municipal Systems Act (Act No 32 of 2000), stipulates that the executive and legislative authority of a municipality is exercised by the council of ELM, and the council takes all the decisions of ELM subject to Section 59. In terms of Section 59 of the Municipal Systems Act, a municipal council must develop a system of delegation that will maximise administrative and operational efficiency and provide for adequate checks and balances and, in accordance with that system, may: -

- a) Delegate appropriate powers, excluding a power mentioned in section 160 (2) of the Constitution and the power to set tariffs, to decide to enter into a service delivery agreement in terms of section 76(b) and to approve or amend ELM's integrated development plan, to any of ELM's other political structures, political office bearers, councillors and staff members;
- b) Instruct any such political structure, political office bearer, councillor, or staff member to perform any of ELM's duties; and
- c) Withdraw any delegation or instruction.

The ELM is a collective executive system combined with a ward participatory system. The original powers of the executive committee are outlined in section 44 of the Local Government: Municipal Structures Act (Act No 117 of 1998). ELM has, in terms of Section 53 of the Municipal Systems Act, defined the role and area of responsibility of each political structure, political office bearer and the municipal manager. In terms of ELM's Policy on Roles and Responsibilities and the Delegation of Power, as well as the delegations register, Council has devolved certain decision making powers (apart from those directly assigned by legislation) to the Executive Committee, the Mayor, the Speaker and the Municipal Manager. The Speaker is the chairperson of the municipal council, the Mayor is the chairperson of the Executive Committee and the Municipal Manager is the head of administration.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

After the Local Government elections that were held in August 2016, the political party composition of the Municipal Council was as follows:-

Table 5: Political Party Representation

Political Party representation	During the year under review	
	Number	% representation
African National Congress	28	82.36
United Democratic Movement	1	2.94
Democratic Alliance	2	5.88
African Independence Congress	1	2.94
Economic Freedom Fighters	1	2.94
Independent	1	2.94
TOTAL	34	100

The Executive Committee is the principal committee of the Council. It is the Committee which receives reports from the Standing or Portfolio Committees of Council and it must forward these reports together with its recommendations to the Council when it cannot dispose of matters in terms of its delegated authority.

The following councillors served as members of the Executive Committee during the term under review:

Table 6: Executive Committee Members

COUNCILLOR	PORTFOLIO
Nonkongozelo Lengs	Mayor
Mathabang Lillian Naketsana	Political Head: Community Services
Thozama Victoria May	Political Head: Infrastructure Planning and Development
Mamello Leteba	Political Head: Corporate Services
Mlamli Mqamelo	Political Head: Financial Services
Nontuthuzelo Nkalitshana	Political Head: Planning and Economic Development

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

The Council has defined the following roles for the Speaker as the chairperson of the Council (over and above the roles assigned by the Municipal Structures Act): -

- ✓ Leader of council in respect of the oversight function;
- ✓ Custodian of the interests of the members of the municipal council;
- ✓ Politically in charge of the community development workers' program; and
- ✓ Responsible for the training and development of ward committees

The ELM established six (06) Section 80 Committees in line with administrative departments which are referred to as portfolio committees to assist the Executive Committee and they are:-

- ✓ Corporate Services Portfolio Committee
- ✓ Financial Services Portfolio Committee
- ✓ Infrastructure Planning and Development Portfolio Committee
- ✓ Planning and Economic Development Portfolio Committee
- ✓ Community Services Portfolio Committee
- ✓ Strategic Governance Portfolio Committee

These portfolio committees are chaired by members of the Executive Committee.

The ELM has, in terms of its By-laws relating to the Standing Rules and Orders which were revised in September 2016, established the following section 79 committees, *inter alia*:-

- ✓ Audit Committee
- ✓ Municipal Public Accounts Committee
- ✓ Women Caucus (established in March 2019)
- ✓ Mandate Committee (established on 28 June 2019)
- ✓ Rules Committee
- ✓ Members Interests and Ethics Committee
- ✓ Budget Steering Committee

During the year under review, these section 79 committees have had varying levels of functionality, with the most active committees being the Audit Committee, Municipal Public Accounts Committee and the Women Caucus.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

2.2. ADMINISTRATIVE GOVERNANCE

The ELM's executive management structure consists of the Municipal Manager, appointed in terms of Section 54 (A) of the Local Government: Municipal Systems Act, and five managers appointed by the Municipal Council in terms of Section 56 of the Municipal Systems Act and one non-section 56 senior manager. All these managers are directly accountable to the municipal manager. The macro organisational structure of ELM, for the year under review, consists of the following departments:-

Table 7: Administrative Departments and Head of Departments

	DEPARTMENT	HEAD OF DEPARTMENT
1.	Municipal Manager	Mr. Khayalethu Gashi
2.	Office of the Municipal Manager	Mrs. Nonkuselo Sokutu
3.	Planning and Economic Development	Mrs. Ntombobolo C. Eddie
4.	Corporate Services	Mr. Sandile R. Matubatuba
5.	Infrastructure Planning and Development	Mrs. Sisekho Sako
6.	Financial Services	Mr. Jack T. Mdeni
7.	Community Services	Mr. Luther T. Kokose

Below is the EXCO and top management of the ELM during the year under review:

**Her Worship the Mayor
Cllr. N. R. Lengs:
Portfolio Head:
Strategic Governance**

**Cllr. A. M. Mqamelo
Portfolio Head:
Financial Services**

**Cllr. T. V. May
Portfolio Head:
Infrastructure Planning & Development**

**Cllr. M. P. S. S. Leteba
Portfolio Head:
Corporate Services**

**Cllr. M. L. Naketsana
Portfolio Head:
Community Services**

**Cllr. N. Nkalitshana
Portfolio Head:
Planning & Economic Development**

Director: Community Services

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

As can be depicted by the table below, of the 24 employees employed by the municipality during the year under review, 15 were females and 9 were males. Another factor that needs to be commended is the fact that of the 24 new employees, 15 were below the ages of 35 years and this augurs well to the survival of ELM:

Table 8: New employees

COMPONENT B: INTERGOVERNMENTAL RELATIONS

2.3. INTERGOVERNMENTAL RELATIONS

The ELM is represented and participates in various cooperative and intergovernmental forums, through its Mayor and Municipal Manager. At a district level, the Mayor is a member of the District Mayor's Forum (DIMAFO) established in terms of sections 24 and 25 of the Intergovernmental Relations Framework Act (Act No 13 of 2005), whilst the Municipal Manager serves in the technical committee/s that support the DIMAFO. At a provincial level, ELM participates directly in the MUNIMEC, which is a meeting of the provincial government of the Eastern Cape with all the Mayors of the province, which is convened by the MEC for Local Government and Traditional Affairs. These meetings sit quarterly and are preceded by the Technical MUNIMEC at which the Superintendent General of Department of Cooperative Governance and Traditional Affairs convenes all the Municipal Managers of the province to discuss service delivery and cooperative governance matters. At a local level the ELM has convened four (04) IDP & Budget Representative Fora that discussed, among other things, the review and adoption of IDP and budget and other related service delivery issues. Other local IGR platforms that were coordinated effectively by their relevant municipal departments were Local Communicators' Forum, Local AIDS Council and Roads Forum to share service delivery information and progress.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

The ELM is enjoined by Section 152 of the Constitution of the Republic of South Africa, 1996, to, *inter alia*:-

- ✓ Provide democratic and accountable government to the local community
- ✓ Encourage the involvement of communities and community organisations in the matters of local government
- ✓ Ensure the provision of services to communities in a sustainable manner

2.4. PUBLIC MEETINGS

2.4.1.1. *Ward Committee Meetings*

Since the inauguration of the current municipal council in 2016, ELM successfully established 17 ward committees to promote public participation in the affairs of ELM and ward committee for Ward 3 had to be disbanded due to political and other community challenges. The established ward committees were

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

able to convene their meetings as per their approved schedule to discuss community development needs as well as receive feedback on the progress being made by the ELM on service delivery.

2.4.1.2. Ward based planning stakeholder meetings

In 2017/2018 financial year, the ELM developed 5-year (2018/19 – 2022/23) Ward Based Plans (WBPs) for its seventeen (17) Wards. The formulation of the WBPs involved various stakeholders which included community representatives, ELM Councillors and officials and Traditional Leadership institution. The WBPs document has three (3) main components, Legislative and Policy Framework, the Situation Analysis and Strategic Framework. ELM is now supporting communities in their respective wards to manage the implementation, monitoring and evaluation of their WBPs over the five-year period. The implementation of WBPs had five phases of which the first four were performed during the year under review and the last phase, phase five, is due for implementation in 2019/2020 financial year. ELM appointed a service provider (RULiv) for the first financial year, 2018/2019 to implement the first four phases, namely:

1. facilitate project prioritisation and package short-term (low-hanging fruit projects for quick implementation) and medium-long term projects;
2. facilitate conversation through workshops on suitable / desired ward / community development entities to drive, and facilitate development and utilisation of resources;
3. package projects which are ward-specific and projects which are local based, i.e. projects that cut across the municipality and affect more than one ward;
4. develop implementation plans

2.4.1.3. Community Based Meetings

The ELM demarcated 17 wards into 192 villages for village and township based engagements. These village and township based meetings were convened to promote focused and targeted participation within each ward. This intimate community engagement approach was initiated by ELM after observing that the conventional approach of convening ward quarterly meetings created a social distance between Council and communities. This conventional approach indirectly advantaged and unwittingly promoted participation of communities in close proximity to the central venues of ward committee meetings. The contemporary approach not only assisted ELM in closing the social gap, it also assisted in creating 164 work opportunities under the EPWP programme to the unemployed young people as Community

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Participation Liaison Workers (CPLWs) who act as administrative support to community meetings and also act in the dissemination of information from Council and government departments as they are able to reach communities in their respective villages. The table below depicts the number and names of CPLWs per ward and village/township employed during the year under review:

2.4.1.4. Ward War Rooms

Since the inauguration of the current municipal council in 2016, ELM successfully established 15 war rooms derived from the Integrated Service Delivery Model (ISDM) which was introduced by the National Government under the Office the Deputy President in August 2015 aimed bringing together all service delivery stakeholders to provider services in an integrated manner. Ward room in ward 3 was later disbanded due to political and other community challenges and the other wards which have not established their war rooms are wards 6 and 17. Although the other fourteen wards had established their war rooms, their functioning was non-existent. The table below depicts the ward with war rooms:

Table 12: Wards with War Rooms established

WARD	DATE	NUMBER OF PEOPLE ATTENDED
Ward 01	15 June 2018	35
Ward 02	23 November 2016	53
Ward 03	22 November 2016	108
Ward 04	21 November 2016	49
Ward 05	30 November 2016	57
Ward 06	NOT YET ESTABLISHED	
Ward 07	24 November 2016	81
Ward 08	02 December 2016	36
Ward 09	06 December 2016	22

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Ward 10	18 November 2016	60
Ward 11	18 November 2016	72
Ward 12	05 December 2016	36
Ward 13	15 June 2016	29
Ward 14	24 November 2016	91
Ward 15	28 November 2016	70
Ward 16	30 November 2016	81
Ward 17	NOT YET ESTABLISHED	

Table 13: List of Public Meetings

As alluded earlier on, Ward 3 was the only Ward that still had to establish its ward committee. The table below depicts the list of public meetings that were held by ELM during the year under review:

Nature of meetings	Date & Venue of Events	No. of Councillors	No. of Municipal Administrators	No. of Sector Departments Officials	No. of Community Members	No. of Traditional Leaders	No. of Community Development Workers

2.5. IDP PARTICIPATION AND ALIGNMENT

The table below depicts the alignment of the IDP participation process:

Table 14: IDP Participation and Alignment

IDP Participation and Alignment Criteria*	Yes/No
Does ELM have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	Yes
Do the IDP KPIs align to the Section 57 Managers	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes

COMPONENT D: CORPORATE GOVERNANCE

2.6. RISK MANAGEMENT

ELM continuously reviews its risk register to deal with all emerging risks that could hamper the municipality in providing services to its communities. For the year under review, risk management function has been operational and effective and Risk Management Committee was established and its members were in terms of ELM's Risk Management Policy and Risk Management Committee Charter formally appointed by the Accounting Officer to serve on the Committee. ELM has also during the year under review conducted risk management awareness training as part of embedding risk management culture within the institution.

2.7. ANTI-CORRUPTION AND FRAUD

As part of its endeavours in minimizing fraud and corruption occurrences within the institution, ELM conducted an anti-corruption and fraud awareness workshop during the month of November 2018

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

focusing on high risk areas in the municipality like cashiers, traffic officers, human resources personnel and SCM practitioners.

2.8. SUPPLY CHAIN MANAGEMENT

2.8.1. EXECUTIVE SUMMARY

- ✓ The Local Government: Municipal Finance Management Act requires the municipality to implement a Supply Chain Management Policy which gives effect to the provisions of Part 1 of Chapter 11 of the Act that deals with Supply Chain Management.
- ✓ Elundini SCM Policy has been adopted in line with Municipal Finance Management Act, Section 111 & 112 that deal with supply chain management policy. It is important to note that in terms of the Municipal Finance Management Regulation 3, our reviewed policy has been adopted by the council on the 28 June 2019 under resolution CON/102/19 Report on Supply Chain Management Policy.
- ✓ The SCM Policy integrates with the Transport and Catering Policy, Standard for Infrastructure Procurement and delivery Management (SIPDM Policy), Contract Management Policy and Construction Procurement Strategy which is aiming at developing and mentoring emerging enterprises.
- ✓ The role of the Council of a Municipality in maintaining oversight on implementation of its supply chain management policy is included in this policy and the Accounting Officer pursuant to Regulation 6 of the MFMA, prepares and submit a draft a supply chain management report complying with regulation 2 (a) & (3) to the council of the municipality for noting and adoption.
- ✓ The purpose of this report is to provide an overview of the SCM process in terms of Council's Supply Chain Management Policy (as amended), Section 9.3.1 of said Policy states that the Accounting Officer must, within 30 days of the end of each financial year, submit a report on the implementation of the policy to the Council.
- ✓ The role of the Accounting Officer, in line with Regulation 6 of the MFMA, is to prepare and submit a draft a SCM report complying with regulations 2 (a) & (3) to the council of the municipality for noting and adoption.

2.8.2. LEGAL REQUIREMENTS

- ✓ The Constitution of the Republic of South Africa (No. 108 of 1996), Section 217;
- ✓ Local Government: Municipal Finance Management Act (No. 56 of 2003) (MFMA);

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- ✓ Municipal Systems Act (Act 32 of 2000), Section 21A (MSA);
- ✓ Municipal Supply Chain Management Regulations (Government Gazette 27636 dated 30 May 2005) (SCM Regulations);
- ✓ Elundini Municipality Supply Chain Management Policy (SCM Policy)

2.8.3. BACKGROUND

- ✓ Elundini officials and other role players in the supply chain management system of the municipality must implement the SCM Policy in a way that gives effect to Section 217 of the Constitution, which requires processes to be fair, equitable, transparent, competitive and cost effective.
- ✓ Council's mandate is to maintain oversight over the implementation of the SCM Policy and for the purposes of such oversight the Accounting Officer must within 30 days of the end of each financial year, submit a report on the Implementation of the Supply Chain Management Policy of the municipality, to Council
- ✓ The report will reference the following sub sections:
 - (i) Establishment of SCM Section
 - (ii) Demand & Acquisition Management
 - (iii) Contract Management and Vendor Performance

Establishment of SCM Section

- a) The unit has been established to implement supply chain management policy as per regulation 7 (1) of Supply Chain Management Regulation. The unit operates under the direct supervision of the Chief Financial Officer as required by regulation 7 (3) of the Supply Chain Management
- b) The structure of the SCMU was amended and approved during the 2018/19 financial year and requires a review in order to address the current shortcomings in the section.

Challenges

- a) There is a need for a new proposed organogram subject to approval by CFO, aiming to address some issues relating to delays that occur on procurement processes and will allow for the improved procurement processes for transactions valued above R200 000 .
- b) The municipality has been faced with credibility on crafting of Bid Specification as a result most bids were re advertised.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- c) Again there were delays which were caused by the complex standard SIPDM, wherein, Registered Built Environment Professional must compile review report and submits to the Chair of the Specification Committee who accept procurement documentation and submit to the Accounting Officer who approves and endorses the procurement documentation.
- d) An appointment of the pool of Pr. Technologists was done later and that contributed to delays on the evaluation of the infrastructure tenders.
- e) The complexity of evaluation reports prescribed by National Treasury on SIPDM and the type of contract chosen by the institution (NEC3 Contracts) also contributed on delay because of lack of understanding from role players.
- f) Training interventions were devised by the institution on all bid committee members.

2.8.5. Demand & Acquisition Management

- a) The municipality's system of acquisition management must ensure:
 - (i) That goods and services are procured in accordance with authorized processes only;
 - (ii) That expenditure on goods and services is incurred in terms of an approved budget in terms of Section 15 of the MFMA;
 - (iii) That the threshold values for different procurement processes are complied with;
 - (iv) That bid documentation, evaluation and adjudication criteria and general conditions of a contract are in accordance with any applicable legislation; and
 - (v) That any Treasury guidelines on acquisition management are properly taken into account.
- b) A process flow of the demand plan was developed; each department populated Demand Management Plan, which was subsequently signed off by each department.
- c) To support the process, schedules for convening the committee meetings were developed and circulated to all SCM users. Challenges that brought non-compliance to the Demand Plan were late submissions of specification that resulted to late advertisement / implementation. Most projects are advertised due to non-adherence of bidders to the required specifications and functionality.
- d) The Municipality had 62 Project planned for 2018-2019 Financial year and the following is the status quo:-
 - Awarded: 40
 - SCM Stages: 13

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- No Specification Submitted: 4
- Cancelled : 5

e) Goods and service are procured in accordance with authorized processes and approved delegations. Expenditure that has been incurred was budgeted for in the approved budget of Council. The bid documentation that is utilized is in accordance with the guidelines issued by National and Provincial Treasury, the general conditions of contract and applicable legislation such as the Construction Industry Development Board Act (Act 38 of 2000), SIPDM and we are continuously improving the documents in order to improve access and ease of use.

f) The municipality in place had designed a procedure manual which is intends to improve governance in the SCM and also to provide guidance to the ELM officials in the procurement of goods and services.

g) The municipality is preparing process flow charts helps to assign responsibility, communicate a process those unfamiliar with it, such as new employees and outside auditors, reducing the time needed to learn the details embedded in the Policy.

h) Elundini Municipality is a small municipality with limited number of suppliers and service providers therefore it was perceived most pertinent to review service charter in order to guarantee reasonable timeframes and turnaround time

i) Competitive Bidding for Contracts valued more than R200,000

- The competitive bidding process and bid committee structures are functioning. Composition, mandate, roles and functions of the SCM Committees (Bid Specification Committee, Bid Evaluation Committee and Bid Adjudication Committee) has also been reviewed and officials serving on these committees are formally appointed by the Municipal Manager and are therefore required to complete declaration of interests forms that are signed by the Commissioner of Oath
- Training of all SCM Bid committee members and other role players is done annually.

j) A number of 42 Bids was awarded in 2018/2019.

2.8.6. Contract Management & Vendor Performance

a) Contract management systems are in place and fully functionalization of Contract Management as a tool for tracking projects could map the municipality to its success.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- b) A template for assessing service provider and contractors in their performance has been formulated & utilized, this assist the municipality in continuous improvement of the service provider as the feedback for services rendered is given back to them so that they can improve in the arrears of their weaknesses.
- c) On the 14 March 2018, both Finance and Infrastructure Standing Committees sat and planned effective coordinating procedure that will effectively monitor all projects.
- d) Subsequent to that meeting which was a success, both SCM and I P & D, on a monthly basis conduct a monthly progress meeting where all contractors and consultants were present to present their progress on sites.
- e) A template of reporting has been designed for all projects. In the meeting there is also an opportunity to interact with the report, raise red flags and assign responsibilities and action plan on time. Monitoring and evaluation & Risk Office section also form part of this project monitoring committee.

2.8.7. DEVIATIONS

- a) Section 36 of Council's Supply Chain Management Policy allows the Accounting Officer to dispense with the official procurement processes.
- b) The expenditure incurred through deviation from normal supply chain management processes amounted to **R 7 201 621, 11** during 2018/2019 financial year. This figure broken by department is as follows:

DEPARTMENT	AMOUNT
Municipal Manager's Office	R 335 450, 81
Budget and Treasury Office	R 1 877 445, 81
Infrastructure Planning and Development	R 2 206 621, 71
Corporate Services	R 1 757 658, 90
Strategic Planning and Development	R 627 039, 71
Community Services	R 397 404, 16
TOTAL	R 7 201 621, 11

Section 36 (1)(a)(i)	1 124 255,24
Section 36 (1)(a)(ii)	1 239 311,40

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Section 36 (1)(a)(iii)	-
Section 36 (1)(a)(iv)	-
Section 36 (1)(a)(v)	R 4 838 054,47
Total	7 201 621,11

- c) The bulk of the deviations may be addressed via competitive bidding processes, proper planning and this office are continuing to assist user departments with the sourcing of specifications in order to attempt to reduce the occurrence or re-occurrence of some deviations.
- d) A multi-year plan for operational activities can assist in the reduction of deviations, in essence, apart from having Demand Management Plan, SCM will attempt to develop a plan for all other items budgeted for each and every financial year regardless of the value.

2.8.8. COMPLIANCE WITH MFMA AND SCM POLICY

- a) During the year under review, there was a deterioration in the management of the MFMA Section 32 matters as evidenced by the increase in irregular expenditure. This increase, which was not originally identified by management but picked up by the Auditor – General, occurred as a result, in the main, of the misapplication of the provisions of the provisions of Regulation 29 of the SCM Regulations. To curb this challenge the Accounting Officer directed that there must always be a SCM practitioner in attendance, In the absence of the Chief Financial Officer, another manager directly accountable to the CFO must be appointed for that particular meeting and that the BAC has been constituted such that that it would never have a quorum if all senior managers are not in attendance.
- b) The municipality has been found not to be adhering to the requirements pertaining to calculation of points in terms of PPPFA 2017. In terms of Preferential Procurement Regulations of 2017, paragraph 6(1) stipulates that the following formula must be used calculate points out of 80 for price in respect of a tender with a Rand value equal to or above R30 000 and up to a Rand value of R50million, ***including all applicable taxes*** . Again this was more of misinterpretation of the regulation. Going forward, the municipality when evaluating a tender calculations on preferential point system include all applicable taxes.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- c) There were issues of non-compliance in application of SCM Regulation 36, a matter which also requires attention when approving deviations to ensure that they fall under authorised categories of regulation 36 and reasons for deviating are justifiable.
- d) The use of SCM Regulation 36 of Supply Chain Management transactions have decreased

2.8.9. RELATED PARTIES

Company Name	Relationship	Position of the person in the state	Amount
Isiphile Trading 2013	Family to Ntombizanele Thuli	Chief Buyer	R 325 527
Mozi Auctioneers	Family to Hlubikazi Mduzulwana	Manager: SCM	-

TOTAL AMOUNT			R 663 068

2.8.10 COMPLIANCE WITH NEW PPPFA 2017 (SUBCONTRACTING)

- a) The municipality developed and reviewed its construction procurement strategy in 2018, which is aimed to withstand for a period of three (3) years. This strategy is designed to ensure that the Primary objectives of the municipality as well as secondary objectives by ensuring that the main contractors who have successfully been appointed subcontract 30% of the value of the contract to Local SMME's
- b) A subcontracting strategy has been developed for Mount Fletcher revitalization programme which also stipulates how the above will be achieved.
- c) This local development initiative will also ensure that Local SMME's received training on construction field.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

d) A Sub construction plan document has also been developed to ensure compliance with the procurement strategy.

2.8.11. IRREGULAR EXPENDITURE

Opening Balance	R 334 699, 00
Add: Irregular Expenditure - current year-	R 49 865 350, 61
Less: Amounts recoverable (Not written off)	R 11347, 30

Making use of non compliant service providers	7,00	0
TOTAL	33,00	15

2.8.12. CONCLUSION

a) Elundini Municipality has been implementing the Supply Chain Management Regulations through the Supply Chain Management Policy. Any shortcomings or inadequacies in the implementation of the Supply Chain Management Policy are constantly addressed.

b) Demand Management will be a focus area and progress will also be reported regularly.

c) Organogram will be reviewed to address risk already identified so as to eliminate risk on procurement processes.

d) Projects and procurement are being planned with cognisance of the requirements of the Supply Chain Management legislative framework to ensure that the process of the municipality are fair, equitable, transparent, competitive and cost-effective and comply with the prescripts of the Municipal Finance Management Act in order to give effect to Section 217 of the Constitution

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

2.9. BY-LAWS

There were no new by-laws that were developed nor current by-laws reviewed for the year under review.

2.10. COMMUNICATION

2.10.1. Development of Communication and Social Media Policies

Elundini Local Municipality (ELM) developed a Communication Strategy (2017-2022) which has social media communication as one of the strategic communication pillars. Social media communication was adopted as one of the biggest communication strategies because almost everybody now owns or has access to one of the gadgets like telephone, smart phones, tablets, iPads, computer, etc.

A need for the development of social media policy arose to establish rules of engagement and give guidance on how the Council, stakeholders, communities and municipal employees should engage with ELM social media platforms to advance effective communication and to ensure that diverse audience of ELM is accommodated through various social media platforms that are predominantly accessible to ELM communities and stakeholders.

There is currently no regulatory framework guiding social media communications, so this social media policy is generally informed by the general communication regulatory framework:-

- ✓ The Constitution of the Republic of South Africa, 1996
- ✓ Local Government Municipal Systems Act, no. 32 of 2000, Chapter 4: Community Participation
- ✓ Promotion of Access to Information Act, 2000
- ✓ Promotion of Administrative Justice Act, 2000
- ✓ Public Service Act, 1984
- ✓ The Protection of Personal Information Act, 2013
- ✓ The Copyright Act, 1987
- ✓ Electronic Communications and Transactions Act, 2000

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

2.10.2. Establishment and performance of social media platforms

ELM Council approved the Communication Strategy aimed at improving communication effectiveness about service delivery to the community. For the past three quarter ELM communicated service delivery information to communities in this platform and this confirmed that social media has become an easy communication tool to communicate service delivery issues. The first Social Media Policy was developed in 2018. At least 4 social media platforms are being utilised with Facebook being the most popular and active followed by WhatsApp with Twitter and Instagram being less active.

For the quarter January – March 2019 ELM’s Facebook page stood at 2 287 followers and with 2 287 likes and this number has since grown 3 411 followers and 3 381 likes, registering a growth of 1 124 followers and 1 094 likes. From the previous financial year ELM Social Media page has managed to increase its followers and people who like the page. The Facebook has grown to 2 287 followers and with 2 287 likes. The number now stands at 2 597 Likes and 2 610 people who follow the page.

To populate our page, targeting the unemployed youth, we are now posting vacancies, job seminars. Notwithstanding its popularity it has also managed to also attract negative responses and that is why it was important to set up rules of engagement in the form of a Social Media Policy. We also populate the Facebook page in another platforms like the IDP Rep Forum and Local Communicators Forum, it’s also included in municipal publications like the quarterly newsletter Bluesnow, bi-quarterly internal newsletter “The Buzz” etc.

2.10.3. Development of Internal Communication Publication

Strategic internal communication can do more than keep employees informed – it creates a positive state of mind. It can ensure that they work towards a common goal through clear direction and vision. This reduces the capacity for workplace conflict and encourages a knowledge-sharing environment that motivates for better performance and a “bigger-picture” approach.

There is a need to complement public communication with improved internal communication to inform employees. Internal communication should be strengthened to ensure that employees are kept abreast of what municipality is doing to deliver services to the broader public. Clear, concise and consistent communication educates employees, enabling them to appreciate the value of their institutions’ programs and goals. It is a significant element in engaging employees and keeping them focused, committed and productive and aligning everyone’s activities.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELM first published its bi-quarterly internal publication, "The Buzz" in 2018. From its launch issue, the focus had been on introducing the newly recruited employees which is in itself is a step towards serving the community with a full staff complement. As the production of the issue progressed, the focus changed to supply information on the various departments within the municipality and internal events. The intentions of the publication are:-

- ✓ creating a platform for departments to share important information for the benefit of all employees;
- ✓ to close a communication gap within the institution about service delivery issues;
- ✓ keeping staff informed about municipal administration and its systems as well as knowledge about the roles of each departments.

2.10.4. Websites Uploads

ELM uses its website to publish all documents and information it wishes to share with its community.

Below is the list of documents placed on the municipal website.

Table 15: Website Content Upload

Municipal Website: Content and Currency of Material		
Documents published on ELM's / Entity's Website	Yes / No	Publishing Date
Draft IDP and Budget 2019 – 2020	Yes	05 April 2019
ELM Final IDP 2018 – 2019	Yes	03 July 2018
ELM Final Budget 2018 – 2019		27 June 2018
ELM Institutional SDBIP 2018/2019	Yes	26 July 2018
All current performance agreements required in terms of section 57(1)(b) of the Municipal Systems Act (2014) and resulting scorecards	Yes	31 July 2018
Final Annual Report for Year Ended 30 June 2018	Yes	01 February 2019
Adjustment Budget June 2018	Yes	02 March 2018

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Oversight Report on the Annual Report for the year ended 30 June 2018	Yes	29 March 2019
IDP and Budget Process Plan 2018 – 2019	Yes	02 October 2018
ELM Amended SDBIP 2018 – 2019	Did not have any amendments	
Disposed of vehicle	Yes	10 May 2019

2.11. PUBLIC SATISFACTION ON MUNICIPAL SERVICES

For the year under review, ELM did not conduct any Community Satisfaction Survey except for the one that was facilitated by Resa Analytics in the financial year 2017/2018.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

CHAPTER 3: SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

COMPONENT A: BASIC SERVICES

For the year under review, ELM has managed to spend 100% of its capital budget on capital projects identified for this financial year in terms of the municipality's IDP. For the basic services key performance area, the following was achieved during the year under review:

- ✓ 14 204 indigent households received access to free basic services;
- ✓ 7 269 households and commercial properties had access to refuse collection services;
- ✓ 935 households were connected in the electrification programme by ELM;
- ✓ 1 250 households were connected in the electrification programme by ESKOM;
- ✓ 70 street lights were installed in Maclear;
- ✓ 3,6 km of Sonwabile to Old Location paved roads and Stormwater were upgraded;
- ✓ 2 km of Sithole paved streets and Stormwater were upgraded;
- ✓ 71% of Vincent paved streets and Stormwater were upgraded;
- ✓ 1,47 km of Mjikelweni unpaved access roads and Bridges were constructed;
- ✓ 3.10 km of unpaved T74 access roads via Mohoabatsane to Khohlong were constructed;
- ✓ 70% of Liphofung access road was constructed;
- ✓ 5,7 km of Ntabayikhonjwa unpaved access road was constructed;
- ✓ The construction of Mt Fletcher Sports Field was completed;
- ✓ 224,5 km of District Roads (DR) were maintained under Public Works Service Level Agreement;
- ✓ 1 child care facility was rehabilitated;

3.1 ELECTRICITY

A total number of 2 185 households were connected during the year under review. This figure includes 935 households connected by ELM and 1 250 by ESKOM. The table below is a testament to the improvement of electrification backlog reduction in ELM:

Table 16: Household Electrification

WARD	Number of villages	Total households	Electrified	Electrified (15/16)	Electrified (16/17)	Electrified (17/18)	Electrified (18/19) ESKOM	Electrified (18/19) ELM	Not electrified	% not electrified
1	12	2 823	2 635	565	1 117	592			188	7%

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

2	7	3 275	2 466							
3	12	2 381	1 823						279	12%
4	21	2 336	1 797	349	603				539	23%
5	15	2 712	2 348			89			275	10%
6	10	4 968	4 732						236	5%
7	24	3 378	2 150		523	237			357	11%
8	21	2 502	988			538		226	539	22%
9	6	2 354	1 648			105			601	26%
10	15	3 962	2 575			518	200		669	17%
11	16	3 065	1 488		35	105			1 437	47%
12	12	4 430	2 882	326		125			234	5%
13	10	2 773	749	300	250	199		709	605	22%
14	15	2 708	486			500	250		1 472	54%
15	10	8 071	626			539	800		6 106	76%
16	25	3 960	478			538			2 833	72%
17	16	2 866	1 784		471				611	21%
TOTAL	247	58 564	31 655	1540	2 999	4 364	1 250	935	17 790	30, 4%

As can be seen on the table below, the electricity section had 17 posts during the year under review, 15 of them were filled and only 2 remained unfilled:

Table 17: Electricity Services Employment

Employees: Electricity Services					
Job Level	2018		2019		
	Employees	Posts	Employees	Vacancies (fulltime equivalents)	Vacancies (as a % of total posts)
	No.	No.	No.	No.	%
0 to 3	3	3	2	1	33. 3%
4 to 6	5	5	4	1	20%

Street Lights	1 112 220.45	1 112 220.45	1 112 220.45	0.00	1 112 220.45	

3.2 Waste Management

The municipality had a properly configured waste and environment unit comprising general staff, supervisors, Superintendent, Education and Awareness Practitioner and Manager: Waste and Environment. The Manager: Waste and Environment was designated as a Waste Management Officer (WMO) in terms of section 10 of the NEMWA Act. Refuse collections from households and commercial businesses within Elundini was collected in terms of an approved collection schedule. The number of all serviced units and commercial properties stand at 7 269 to date inclusive of newly added residential areas in Maclear and Mt Fletcher, namely Maxhegweni, Phola Park, New and Old Blocks and in Mt Fletcher). Street cleaning was done on a daily basis and includes litter picking and clearing of identified illegal dumps.

Towards end of the financial year a new initiative was started which included conducting waste and environment education among affected communities before illegal dump clearing program took place. The program was conducted monthly and rotated among the three towns of Elundini. Another new initiative started mid-year during 2018/2019 involved repairs to the Ugie Materials Recovery Facility (MRF) in an attempt to support waste recycling. The facility would benefit local recyclers who were

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

organized into cooperatives. For purposes of operating the MRF when it is completed, a secondary cooperative would have to be established as the operating agent of the facility for the benefit of all affiliated recycling cooperatives. Continued use of EPWP workers enhanced various cleaning programs and in the main was utilized to augment dwindling staff numbers during shifts as well as assist in clearing of illegal dumps.

The management and operation of waste sites remained a challenging issue in the municipality. The contracted private party through a Public Private Partnership agreement performed below expectations which resulted to some invoices not honoured due to certain performance information not being provided. Where such information was provided penalties became a norm for failure by the contractor to meet certain output specifications as per the agreement. The municipality then reviewed the waste and environment unit's structure to provide for landfill staff as part of readiness and preparations to take over from the contractor at end of the contract. These people ought to be recruited on a more urgent basis to enable their immediate introduction and mentoring into the landfills programs as part of growing internal capacity.

A few of the challenges which are being attended to on a continuous basis relate to aging fleet for regular collection, provision of containers (trolley bins) to enable the effective service of business units. More skip bins are also needed to provide a sustainable bulk waste service containment and removal. The rolling out of a program of street litter bins for effective litter control is envisaged for the 2019/2020 financial year.

Achievement in Waste Management Program

- Winner of the GMC completion in 2018 at District level, entered the Provincial leg and won 2nd runner up and a prize money of 200 000. The prize money has been used for minor renovations of the Ugie Material Recovery Facility for ensuring an enabling environment for recycling activities.
- Collection Services to more than 7 057 households and 212 Businesses/institutional customers as per collection schedules.
- Daily Street Cleaning and Skip Bin Removal Services for various customers with addition of wheelie bins to be purchased and rented by willing commercial customers at a fee that will be determined with the assistance of the revenue unit.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- Three (3) LVDS were purchased for three Waste and Environment Supervisors to enable supervision and monitoring of staff. An additional LDV was yet to be purchased for Superintendent Waste and Environment.
- Linking of the refuse fleet to the municipal vehicle tracking system for control and monitoring purposes;
- Ongoing monitoring of the execution of the PPP contract with Interwaste;
- Employment of beneficiaries by the Department of Environment, Forestry and Fisheries (DEFF) formerly known as DEA, for assisting the municipality with education and awareness campaigns on environmental management as well clearing & management of illegal dumping areas;
- Cleaning of identified illegal dumping areas on a quarterly basis through partnership with the district municipal health services;
- Developed annual awareness campaign plan for education and awareness campaigns in the form of events and door-door, there's partnerships with schools on these campaigns as well assisting some schools prepare for the Enviro awards organized by DEDEAT annually;
- Assistance of recyclers within the municipality though trainings and development of business proposals for sourcing of funding;
- Beautification of open spaces and parks within the municipality for eradication of illegal dumping of waste as well for awareness purposes.

Education and Awareness

ELM continuously initiates programmes to increase awareness concerning waste management and particularly to promote a cleaner environment to live in, in and around residential areas. The main purpose of these programmes is to raise awareness and educate Elundini residents on issues related to cleanliness, waste, environmental management and sustainable development. The Waste management awareness focuses on the anti-littering programmes for the public/clean up campaigns. The campaigns are held as a joint undertaking with the JGDM (Municipal Health Services).

Parks, Amenities and Open Spaces

There are no major landscaping initiatives undertaken by the municipality apart from identifying neglected open spaces and what looks to have been beauty or recreational parks. These are done on town by town basis depending no identified spaces of interest. Two of these are being landscaped and beautified in Maclear. Ugie has a few open spaces adopted by local communities who landscape and

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

plant flowers and shrubs for purposes of beautification. These are spaces which have been heavily littered with waste and sometimes used as hiding spaces for vagrants and criminal elements.

The municipality's indirect contribution to greening and landscaping of spaces is done through honouring Arbor Days through which donated threes are distributed to local schools the remainder of such trees being planted around sport fields and parks. Apart from being able to deal with structural fires albeit to a limited degree as highlighted earlier the municipality is an affiliate to the Maclear Protection Association specifically for purposes of dealing with veld fires. This arrangement is based on annual subscription and undertaking that the association which has adequate capacity and machinery to deal with veld fires also do so even in areas where the municipality have jurisdiction.

3.3 Housing

Section 26 of the Constitution of South Africa says that "everyone has the right to have access to adequate housing". In this regard the "State must take reasonable legislative and other measures within its available resources to achieve the progressive realization of this right." Thus the Constitution creates obligations for government to take all reasonable actions to ensure that all its people have the opportunity to acquire a home. Schedule 4 of our Constitution stipulates what functions each sphere of government is responsible for. It states that housing is a function of our National and Provincial Governments. Although the finance for housing development is provided by National Government, through Provincial Government, through the process of co-operative governance our municipality has become involve in the roll-out of housing projects.

Municipalities are responsible for setting housing delivery goals. To set feasible and reasonable targets, municipalities need to have a good overview of the housing demand. This does not only include the number of houses that are needed, but also the types of houses, their locations etc. To get a good overview, the municipality needs to collect information that can assist them in providing the kind of housing that the people need. Although ELM is a rural municipality there is a demand for housing in the rural area but there is also a call for housing projects in the urban area which requires the municipality to coordinate and delivery of housing to ensure that housing projects are delivered at the right time, the agreed price and the specified quality.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

The above, in terms of urban housing, really forms part of the function SP&ED which means that in the past that urban housing and rural housing has been split.

It must be remembered that the greater the number of rural housing projects, the greater the call for additional services in terms of roads water and sanitation.

Municipalities are responsible for ensuring sound public participation for all forms of housing development. Such public involvement begins with the development of a Housing Sector Plan which can meet the needs of all parties. In order to reach all involved interest groups, it is often necessary to use a variety of methods for communication and consultation. An example of such a plan is part of the Integrated Strategic Development Framework.

Currently ELM has commenced with the process of registering housing needs on the Department of Housing's database. This is important from a point of view of keeping and maintaining a credible data base of beneficiaries otherwse than paper registers which get lost, damaged or misplaced. Training is done by the Provincial Human Settlements Deaprtment. For the 2018/2019 period the Human Settlements Section captured 10 083 requests

The unit dealing with Human Settlements is set to be incorporated into the Infrastructure deprtment in the next financial year as an outcome of a restructuring exercise of ELM. The municiplity will even in this case retain its facilitation status. As of now, the accreditation for a full housing provision status has not been deemed to be desirable owing to a number of challenges among which are capacity and budget constraints. The housing unit of the municipality consists of only one official who is a link between ELM and the Department of Human Settlement in the Province.

Housing projects for 2018/2019 financial year as reported by ECHD are as follows:-

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Project	PROGRESS	CHALLENGES	INTERVENTIONS
Elundini – Sinxako 486 – Phase 2) Wards 6 (target for 2018/19 is 50)	Units Completed 42 (target = 50 for 2018/19 FY Contractor reached agreement on Site to build 100 additional units making 150	Progress within agreed target as per Contract agreement (50 units). SP experienced bad terrain & Double handle, unable to achieve 150	Requested Tamandla to beef up Capacity SP initiated a Cession to chase remaining target (depending of available Funds.)
Katkop 500	Units Completed - 496	Additional Retaining Walls require extra findings, Historic issues (Cession from PPI to Takela Group)	Requested additional fund approved
Mangoloaneneg 365	Units Completed s- 366	Projected Completed ready for close-out once retentions are done	

3.4 Free Basic Services and Indigent Support

The ELM annually reviews its Indigent Support Policy whose basic principles are captured by indicating that the policy ensures that poor households are not denied their constitutional right of access to services. The ELM implements an indigent support policy that makes adequate financial provision to ensure the provision of efficient and sustainable services to all residents within the area of jurisdiction. For the year under review ELM managed to provide free basic services to 14 204 qualifying beneficiaries.

The indigent support policy is an integral part of the Elundini's Tariff Policy that is developed and implemented in a transparent manner to ensure the sustainability of local public services to all of its citizens at an affordable cost. Critically as part of ELM commitment to improve continued access to service and provide a basket of free services as part of the poverty alleviation programme, Council has resolved to accelerate the provision of solar system to non-grid electrified homes within the municipal area (7 500 new applications over the MTREF), to this effect the service delivery targets have been amended to reflect this target; indigent support funding envelope has significantly increased to R 32.9 Million over the 2013/2014-2015/16 MTREF. The table below indicates the number of households with access to free basic services:

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Table 19: Free Basic Services

Free Basic Services To Low Income Households					
	Number of households				
	Total	Households earning less than R2,800 per month			
		Total	Free Basic Electricity	Free Basic Refuse	
2013		5 403		838	
2014		4 260		1 173	
2015		5 022		4 202	
2016		8 265		4 050	
2017		9 418	5 512	3 906	
2018		14 343	10 428	3 915	
2019		14 204	10 837	4 030	

The table below depicts the expenditure incurred in the provision of the free basic services:

Table 20: Financial Performance

Financial Performance : 2019 Cost to Municipality of Free Basic Services Delivered									
Services Delivered	2015	2016	2017	2018			2019		
	Actual	Budget	Actual	budget	Adjustment budget	Actual budget	budget	Adjustment budget	Actual budget
Electricity	2,051,098.52	2,973,665.00	2,552,913.00	2,751,000.00	2,751,000.00	2,751,000.00	R2 939 564	R2 939 564	R2 939 564

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

COMPONENT B: ROAD TRANSPORT

3.5 ROADS

ELM, during the year under review, managed to achieve the construction and upgrading of roads as highlighted in the section 1.2 above. As at the end of 30 June 2019, staff complement in the Building & Civil Works Unit, comprised of the following personnel:

- ✓ 1 x Manager: Buildings and Civil Works;
- ✓ 1 x Administration, Database & Contacts Officer;
- ✓ 2 x Roads Technicians (one for urban maintenance and the other for rural maintenance);
- ✓ 1 x Building Control Officer;
- ✓ 2 x Foremen (one for urban maintenance and the other for rural maintenance);
- ✓ 1 x Foreman (Storm Water Maintenance + SLA);
- ✓ 1 x Plant mechanic;
- ✓ 2 x Artisan Aids (plant mechanics);
- ✓ 12 x Plant Operators;
- ✓ 2 x vacant post for Operators and;
- ✓ 5 x General workers.

In constructing and upgrading of municipal roads, ELM had the following plant during the year under review:

Plant:-

- ✓ 1 x 20 ton excavator;
- ✓ 2 x Construction Graders;
- ✓ 1 x Maintenance Grader;
- ✓ 3 x Articulated Dump Trucks;
- ✓ 2 x 4x4 TLBs;
- ✓ 1 x Agrico Tow Tractor and 15ton Grid Roller;
- ✓ 1 x 18000lt Water Truck;
- ✓ 2 x 12ton Vibratory Roller;
- ✓ 1 x 8000lt Water Truck;
- ✓ 1 High Pressure Jetting Machine;
- ✓ 1 x 10m³ Tipper Truck;

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- ✓ 1 x 8 ton Truck;
- ✓ 1 x 4 ton Truck and
- ✓ 1 x Bobcat

Vehicles:-

- ✓ 5 x LDV;
- ✓ 2 x Mahindra Bolera and;
- ✓ 2 x Toyota Avanza
- ✓ 1 Grader, TLB , 1 ADT located in Maclear and Ugie
- ✓ 1 Grader, Roller, 1 ADT, TLB, Excavator, Agrico located in Mount Fletcher
- ✓ 1 Grader, Roller, 8000 LTs Water Tanker to service SLA roads.

The table below depicts the kilometres of gravel roads maintained, constructed and upgraded to a surfaced standard:

Table 21 : Gravel Road Infrastructure

	Kilometres					
	Total gravel roads	New gravel roads constructed	Gravel roads upgraded	Gravel roads upgraded to tar	Gravel roads graded/maintained	Surfaced Road
2014/15	921km	27km	6km	-	305 km	-
2015/16	525km	50, 2km	11km	-	167, 8 km	-
2016/17	525km	29.46km	-	2.1km	-	5448m ²
2017/18	525km	29.46km	-	-	-	4712 m ²
2018/19	525km	-	-	-	202.55 km	2626m ²

The table below depicts the capital expenditure on infrastructure projects for the year under review:

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Table 22: Capital Expenditure

Capital Projects	2019					R
	Budget	Adjustment Budget	Actual Expenditure	Variance from original budget	Total Project Value

3.5.1 WASTE WATER (STORMWATER DRAINAGE)

Although there were delays in repairing the stormwater drainage equipment due to the fact that parts had to be ordered from overseas suppliers, the section managed to achieve 5.6km of its 7.8km planned targets for the year under review. As alluded in Component A above, stormwater drainage was upgraded at Sonwabile to Old Location, Sithole and Vincent location during paving of streets.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

3.6 TRANSPORT (INCLUDING VEHICLE LICENSING & PUBLIC BUS OPERATION)

ELM does not provide any public transport facility to its communities and the service is only rendered by the private operators. ELM continued to operate two Driving Licence Testing Centres (DLTCs) in Mt Fletcher and Maclear. Both these centres are staffed with examiners and related systems. The e-Natis system provided its services from both DLTCs for the registration of motor vehicles. ELM also operated learner testing to assist people to obtain learners licenses. The Vehicle Testing Station (VTS) is under construction in Mt Fletcher to cater for services that both DLTCs are unable to render. The old VTS in Maclear requires recalibration. Currently residents have to travel to other municipalities for this services something that comes with great inconvenience on their part. As part of enhancing traffic services function three posts of traffics and three law enforcement officers respectively were added as part of ongoing capacitation for the law enforcement. The Public Safety unit of the department has had its structure reviewed to provide for 2 posts of Management Representatives as part of its compliance with Department of Transport Regulations

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

COMPONENT C: PLANNING AND DEVELOPMENT

3.7 PLANNING

3.7.1 SPLUMA Implementation

SPLUMA has been promulgated on 1 July 2014 and the municipalities have a period of 5 years to fully implement the legislation. During the year under review, the department of Planning and Economic Development has done the following activities to implement the SPLUMA:

- ✓ Developed the Draft Land Use Scheme is in place and will be approved in 2019/20 financial year;
- ✓ Developed the Draft Wall-to-Wall Spatial Development Framework has been approved in 2018/19 financial year

Adoption of By- Laws

Of the five standard by-laws received from the Department of Rural Development and Land Reform (model planning and land use by-laws; model framework for delegations; model of tariffs; transitional provision and supporting document); the Elundini Municipality has customised, adopted and gazetted the land use by-law. The SPLUMA delegations framework has also been adopted by the Elundini Council and is being implemented.

The establishment of Municipal Tribunal

The Council of ELM has resolved that the institution will form part of the District Tribunal with Joe Gqabi and the other local municipalities under this district (Senqu and Walter Sisulu Local Municipalities). Joe Gqabi District council has taken a resolution to establish a District Planning Tribunal; all municipal Councils have nominated municipal representatives to sit in the Tribunal. Local municipalities have signed a service level agreements as compiled by the District even though no sitting has been done yet.

Processing of Land use applications

The municipality has started to consider the SPLUMA applications through its authorised official as well as through tribunal. The municipality, though, is experiencing technical challenges in the consideration of the applications and is being assisted by the district municipality to overcome some of the challenges. ELM will in the financial year 2019 -20 develop a register for all applications processed.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Table 23: Application for Land Use Development

Detail	Applications for Land Use Development							
	Formalisation of Townships		Rezoning		Built Environment		Sub Divisions	
	2018	2019	2018	2019	2018	2019	2018	2019
Planning application received	4	9		4	-	-	4	5
Determination made in year of receipt	-	-	-	-	-	-	-	-
Determination made in following year	-	-	-	-	-	-	-	-
Applications withdrawn	-	-	-	-	-	-	-	-
Applications outstanding at year end	0	9	-	4	-	-	4	5
Subsidised housing	-	-	-	-	-	-	-	-

The dual approval of land use applications due to unrepealed provincial legislation is still a great challenge for the land use applications.

3.8 LOCAL ECONOMIC DEVELOPMENT

3.8.1 SMME DEVELOPMENT

3.8.1.1 Contractor Development Programme

The Municipal Council took a decision to concentrate on the construction sector as one of the main developmental sectors in the industry. ELM reviewed its Procurement Construction Strategy which has two categories of objective, the primary which focuses on quality service delivery, the secondary objective, which are aligned with the development of the SMME contractors such as follows:

- promote broad based black economic empowerment
- promote local employment (temporary and permanent) through the delivery of the works;
- develop small enterprise capacity to undertake the portions of the work as subcontractors and the maintenance of the completed works;
- retain as much of the project expenditure within the Elundini Local Municipality; and
- Support skills development by increasing the number of people who have part qualifications, national qualifications and professional designations awarded by statutory councils

At the time of the review of the construction strategy, there were 135 Grade 1s and only 5 contractors graduated from grade 1 to grade 2, but the year ended with 9 grades. 2018/19 ended with 25 contractors graduated from grade 1 to grade 2, with an overall of 220 contractors. The growth of the

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

SMMEs can be associated not only with the municipal programs alone, but also with other government programs implemented in the area.

3.8.2 MASONARY DEVELOPMENT PROGRAMME

Although barriers of entry are high for SMMEs for the equipment manufacturing due to high capital requirement, high resources requirement for accessing technology, the Premier's office funded the municipality 1, 9 million to promote the entry in this industry. The role of the municipality with its partner, Elundini Cooperative Development Centre (CDC), was to ensure that the project was implemented in a sustainable way and benefits the local industry. The municipality should partner with the ELCDC and pilot a brick road construction with bricks manufactured from the Mount Fletcher brick site.

3.8.2.1 Co-operative Development Centre and its Governance

The cooperative development centre was established in 2015 in partnership with DEDEAT and ELM to ensure that the following business services are localised:

- ❖ Basic Services:
 - ✓ Assistance with pre-incorporation training to start up co-operatives;
 - ✓ Basic training of members in co-operative enterprise skills;
 - ✓ Access to sources of finance;
 - ✓ Co-operative economy directory
- ❖ Business planning;
 - ✓ Enterprise development advice and guidance to new and existing cooperatives;
 - ✓ Tender Advice and information;
 - ✓ Co-operative Advice;
 - ✓ Facilitation of market access;
 - ✓ Mentoring; and
 - ✓ Linkages with other co-operatives and SMMEs.

In 2018/19 ELM took a decision to put an interim board in place to lead the repositioning of Elundini CDC after suffering a temporal setback following an institutional arrangement for management that failed to promote accountability and transparency of the institutional. The interim board, with the assistance of the Accounting officer of Elundini and the Council managed to establish a board and to

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

appoint a Centre Manager to ensure good governance based on the principles espoused in the king's code of Good governance. Through this process the following guiding documentation was also put in place:

- ✓ Governance framework
- ✓ Memorandum of incorporation
- ✓ Profile of the board members
- ✓ Elundini CDC board Charter
- ✓ Institutional structure
- ✓ Job Description of the Centre Manager

3.8.3 AGRICULTURAL DEVELOPMENT

3.8.3.1 1 Hector 1 Household

After a consultation session between ELM and the provincial head of Department of Rural Development, which was held on the 19 April 2018, ELM submitted a funding proposal for 1Ha/1Household to the Department of Rural Development in the month of August 2018.

Several planning sessions were held with 3 wards affected and the following was achieved:

- ✓ Household profiling was done for each affected village;
- ✓ Three cooperatives were registered through the assistance of Elundini CDC;
- ✓ The benefiting community members are as follows:
 - Ward 14 – 250 household members
 - Ward 07 – 64 household members
 - Ward 13 – 62 household members

The funding allocation of R9 million was set aside by Rural Development for the project and implementation is due in 2019/20 financial year. The project would be implemented in partnership with ELM, Elundini Co-operative Development Centre and National Department of Rural Development.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

3.8.4 WOOL DEVELOPMENT PROGRAMME

ELM commissioned Council for Scientific and Industrial Research (CSIR) to review the existing feasibility and business plan for wool hub development for Elundini municipality. The business did not only consider the scouring line but also considered the value chain analysis and other pragmatic downstream enterprises for immediate implementation. The project suffered commitment from Provincial government which led to the local wool growers soliciting political intervention from the province. ELM and the local Wool Growers Association (WGA) established partnership with provincial government through ECRDA to implement the project from April 2020. The memorandum of understanding between ELM, ECRDA and the local wool growers would be signed in 2019/20. The business plan was reviewed and would be finalised in October 2019.

3.8.5 TOURISM PROMOTION

3.8.5.1 Maclear Tourism Information Centre

Maclear Tourism Information Centre (MTIC) significantly improved its functionality amid renovations and human resource capacity strengthening. MTIC as a result was able to offer services during the week and on Saturdays. Local and international visitors were able to receive tourist information in real time. The presence and assistance or guidance of Tourism Information Officers led to extension of tourists' stay as they influence visitor choice of stay. The average number of twenty-five (25) visitors were assisted at MTIC on a monthly basis.

3.8.5.2 Tourism Awareness

ELM in partnership with its local Tour Guides conducted tourism awareness which targeted schools and Councillors and visited historic cultural heritage site and museums and rock arts. This tourism awareness was done to promote local tourism.

3.8.5.3 Partnership with National Department of Tourism

ELM in 2018/19, accepted partnership with National Department of Tourism which has a mandate to develop and maintain the National Tourism Information and Monitoring System. The two appointed interns are placed at the Municipal Tourism office to collect the local tourism data.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

3.8.5.4 Craft Centre

The craft Centre since its establishment was utilised to market the products of local crafters and was able to display its product to be sold by the passing by tourists. ELM appointed two officials at the Craft Centre for operational support. In 2019/20 financial year ELM intends to configure the space at the craft centre to have Tourism information Centre.

COMPONENT D: COMMUNITY & SOCIAL SERVICES

3.9 LIBRARIES; ARCHIVES; MUSEUMS; COMMUNITY FACILITIES; OTHER (THEATRES, ZOOS, ETC)

Libraries are a function of the Department of Sport, Recreation, Art and Culture and ELM runs them on an agency basis. To give effect to this arrangement a Service Level Agreement was signed with the provincial government who is subsidizing the services to the tune of R750 000. This also catered for the incorporation of three (3) modular libraries located in rural wards which ideally should also be incorporated into the agreement as they fall within the jurisdiction of ELM.

All three towns operate library facilities through seconded professional librarians assisted by staff appointed by ELM. Some of the challenges regarding libraries include:

- ✓ Reliable access to internet services (in some libraries)
- ✓ Space constraints (no discussion rooms, offices etc.)
- ✓ Lack of dedicated maintenance plans
- ✓ Adequate funding
- ✓ Outdated Memorandum of Agreement

Infrastructure development for provision of community halls particularly in rural wards has been accelerated since the previous financial year. What has been learnt historically has been proper management and maintenance of the Halls. As of the end of the financial year a participatory model which involves using communities to look after the Halls has been conceptualised which shall be piloted in two wards. If successful the model will be rolled out to the rest of the wards which have been provided with community halls. ELM has during the year under review constructed two community halls, namely, Nkalweni and Botshabelo, although Nkalweni is still under construction and is expected to be finished in March 2018.

The table below depicts the expenditure incurred in constructing the two community halls:

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Table 24: Capital Expenditure for Community Halls

Capital Projects	Capital Expenditure Year 2019: Community Halls					R' 000	
	Year 2019						
	Budget	Adjustment Budget	Actual Expenditure	Variance from original budget	Total Project Value		
Total All	4 500 000	4 500 000	3 384 860.66	1 115 139.34	9 000 000.00		
Construction of Ilisolomzi Community Hall	2 000 000	2 000 000	1 383 324.76	616 675.24	4 500 000.00		
Construction of Lower Tsitsana Community Hall	2 500 000	2 500 000	2 001 535.90	498 464.10	4 500 000.00		

3.10 CEMETERIES AND CREMATORIUMS

The state of municipal cemeteries was not a pleasing one for previous years and the year under review especially considering that most used cemeteries are by now almost running out of burial space. It was estimated that Mount Fletcher cemetery would only last until June 2020. Ugie community continued to conduct illegal burials by utilizing a closed cemetery despite a portion of land that was made available in Bhekela Township for use as an alternative. The latter is not a properly planned cemetery with the necessary Geotech studies having been conducted to determine suitability. At the current state in which it is, it can easily be categorized as an informal burial site with no control and regulation of burials as legally required.

The Ugie town cemetery was equally utilized though also not regulated and controlled resulting in no order of burials nor applications received by ELM to conduct burials. Maclear was in a similar position as the two other towns. Other than the old town cemetery, communities used illegally established burial sites. It was agreed that cemeteries that were almost full should be prioritized and further developed and extended to provide more burial space. It was further agreed that all cemeteries should be properly regulated and controlled in terms of the requirements of the relevant cemetery by-law. Cemetery proper regulation applied in the case of Ugie and Mt Fletcher. Some land parcel was identified in Maclear however this is pending the outcome of investigations into its suitability or otherwise.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

All the above steps are important for cemetery management system's immediate implementation which was adopted by ELM. This is the positive that ELM must build on going forward and necessitates formalization of all cemeteries over time. ELM does not operate a crematorium.

3.11 SPECIAL PROGRAMS

The Special Program Unit is responsible for Women empowerment; Youth development, and Mayor's Social Investment; People with disabilities (PWD) and HIV & AIDS coordination functions.

3.11.1 Women empowerment

The Women Empowerment Strategy which was developed by ELM in 2014/2015 financial year gave guidance on how best to advance development of women including women who received technical and business training during The Kairos Moment implementation. The strategy promotes empowerment of women through the establishment of women-owned industrial sites targeting clothing and textile, hair and beauty sector to ensure improves local economy by 2020. Women in hair and beauty were prioritised for support in 2017-2018 and 2018-2019 to create bigger and better business opportunities and build credible business profiles to attract resources for business growth and sustainability.

For the implementation of the strategy to address the above; the following projects were implemented for 2018 -2019 financial year:-

- a) The Kairos Moment 'Breaking New Grounds' Hair and Beauty
- b) Girls with Positive Attitude (GiWPA) and Real Mens' Revolution (RMR)
- c) Project Sitha Solwazi

The following is the progress as per the planned activities per project:

2 The Moment 'Breaking New Grounds' Hair and Beauty

This project as alluded in the introduction focussed on women in hair and beauty. The support that was planned for these women was business infrastructure development through provision of business containers in Maclear for five (05) women businesses. Targeted women businesses were former winners

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

of The Kairos Moment Show in the category of Hair and Beauty, procurement process has started in this financial year, the project is envisaged to be finalized in the next financial year.

3.11.2 Girls with Positive Attitude (GiWPA) and Real Mens' Revolution (RMR)

Girls with Positive Attitude is a project aimed at boosting young girls and boy's confidence in life and to know who they are and their purpose of existence. The discussion were focusing on the issues of children's responsibilities against Brutal Killings taking place in our societies, children's views on General Legalization of Weed, children's rights versus responsibilities and their effects in our societies. The month of April and May were scheduled for the commencement of the project. A Project Steering Committee (PSC) was set up comprising of the municipality, sector departments and civil society organisations. The project was implemented in three phases, the first phase was ward debates that took place on 08, 11, 12, 15, 16 and 17 of April 2019, the second phase was cluster debates which took place on the 13, 15 May 2019 and last phase was final debates which took place on the 11 June 2019.

Schools that participated and benefited are the following Bethania SSS, Lehana SSS, Edward Zibi High School, Sidinane SSS, Thakabanna SSS, Ilingeletu SPS, Mohoabatsane SPS, Ntoko PS, Mangoloaneng SPS, Magedla JPS, Bethania JSS, Umtha Welanga High School, Zendise JSS, Lower Snxaku JSS, ET Tabane All inclusive school, Maclear Public SPS, Ngxaza SPS, Maclear Methodist JPS and Nolufefe SPS. There was a career expo that the department of labor had organized where the learners from schools and other youth from the community benefited by interact with the higher learning institutions for career guidance and early applications for next year and other departments for employment opportunities.

3.11.3 Project Sitha Solwazi

Project Sitha Solwazi is an information sharing project which is meant to empower women in business with information to start and grow their businesses. This project is part of Women Development Strategy implementation. During strategy development a challenge of poor support for women-owned businesses and lack of information to empower women in business to make informed decisions was identified. Project Sitha Solwazi is a direct response and intervention for this challenge. This project over the last years; was implemented through quarterly information sessions wherein government agencies, government institutions and private businesses from around the Eastern Cape were facilitated to come

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

over to share their services with women. In 2018-2019 financial year, 3 information sharing sessions were conducted as per the table below:

Institution	Session	Date	Information benefited	Number/percentage of women benefited
Department of Labour	Women owning and aspiring to start businesses	18 September 2018	Department of Labour shared information relevant for employers. Importance of registering for taxes, conducting early tax returns and registering employees for UIF and paying UIF fees for employees.	90% women mostly with existing businesses
Google Africa, OTP and Department of labour	Business support services and Funding information	21 September 2018	Google Africa offered a presentation on opportunities that are available to publish and market business and the opportunities available in the internet for job seekers	60% was young women
Land bank and Office of the Premier	General services available	24 January 2019	Land bank offered presentations of agricultural funding opportunities they have wherein amongst other are Grants and Loans	70% was young women

3.11.4 Youth Development

3.11.4.1 Capacity Building

During 2018-2019 financial 10 youth business from various wards were identified for training by SPU office working with Office the Premier. They were trained through the Tsolo Agricultural Institution in their special business operation areas such as crop and vegetable production, piggery management and animal management, they were issued with certificates of competence and of attendance. This was an initial step towards the practical support of providing these businesses with the required skill and

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

information to boost their businesses. Youth office and OTP further visited business sites to identify their needs.

A workshop with involvement of Joe Gqabi DM, SAYC, Office of the Premier-Youth section, Department of Labour and Google Africa was organised on 21 September 2018 for 170 elundini young people. The intentions of the program was to capacitate youth on the following:-

- How to write an attractive and effective CV
- How to apply using technology i.e. online application
- Registration of youth on Department of Labour database
- Presentations on youth program provided in the Premier's office for the benefit of young people, e.g. available trainings, funding and etc.

3.11.4.2 Youth Business Support

Department of agriculture handed over tractors and heifers to youth businesses, as follows; 10 Holstein dairy cows and 1 tractor was given to Magidigidi Services (ward 7) to improve production as he is supplying milk to surrounding schools and communities and employing youth, a tractor to Oribidale Farm (ward 1), 1 tractor to iphupha lethu youth project (ward 16). This support was given in order for these projects to be more productive and develop to be commercial farmers.

Maclear Piggery Cooperative LTD is one of the businesses that are supported by the Office of the Premier. Due to the challenge of unavailability of conducive land for Piggery project, the municipality, Office of the Premier and members of the cooperative agreed to change the cooperative from piggery business to vegetable production project. The members with the assistance of the municipality found a three hectare plot and they fenced it with support from OTP.

3.11.4.3 Mayoral Cup

Since 2010, ELM hosted 08 successful Mayoral Cup events wherein 05 codes participated, namely; soccer, netball, rugby, athletics and horse racing. The Mayoral Cup was launched to be an annual event to promote and nurture sport development and talent and was implemented subsequent to a strategic planning session which was held in 2010 which identified strategic programs/projects to be pursued for youth development. ELM is striving to ensure that sport continues to grow and that it reaches a point

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

where its community pursues career through sport. The program also responds to the Municipal Systems Act chapter 4(16) which says that a municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose (a) encourage and create conditions for, the local community to participate in the affairs of the municipality.

Mayoral Cup focused on under 19 of age youth participation as it stressed and wanted to focus on development and participation to Steve Tshwete Games and other developmental programs which strictly focuses on age restriction. Mayoral cup was hosted from 16 February 2019, it started with ward games, followed by cluster games which were played on the 23-24 March 2019, horse racing on the 30 March 2019 in ward 5 then final games were played on the 6th April 2019. All ward winners received sets kits.

Following are the wards that played in the finals and were awarded:

Code	Wards	Final Results
Soccer	03 vs. 06	Ward 06 took 1 st Prize Ward 3 took 2 nd Prize Ward 14 took 3 rd Prize
Netball	09 vs. 08	Ward 9 took 1 st Prize Ward 8 took 2 nd Prize Ward 2 took 3 rd Prize
Rugby	02, 03 and 05	Ward 5 took 1 st Prize Ward 3 took 2 nd Prize Ward 2 took 3 rd Prize

Other Sports Activities

Honourable Mayor in partnership with NSP Events Management Co donated prizes for the amount of R16 000 to the tournament which was held in ward 6 Ngccele, Jamangile Sports Ground on the 20 April 2019. This amount was split into first prize R8000.00, second Prize R5000.00, third prize R3000.00.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

3.11.5 Mayor's Social Investment (MSI)

In 2012, the ELM designed a program called Mayor's Social Investment which had four main pillars. These pillars are Bursary Support/Assistance; In-service Training Support; Adopt a school; and Bridge of hope

a) Bursary Support/Assistance

ELM supported 04 students in this financial year, payments were fully processed to institutions for the following students:

- Siphamandla Mpanana: ND Agriculture in Nelson Mandela University.
- Kekeletso Chalatsi: Bachelor of Built Environment in Architecture.
- Ayanda Kula: ND Agriculture Economics in University of Fort Hare.
- Sikhanyiso Bali: ND Electrical Engineering Durban University of Technology

b) In-service Training Support

The following two students received in-service training support in order to complete their studies and to graduate:

- **Lentsha Letlala:** The municipality organized in-service training for him for the period of six months under IT section starting from June 2018 till end December 2018:
- **Khanyisa Joja:** She was a beneficiary of MSI bursary, now she has been absorbed permanently in the municipality under Community services Department as an Office Admin Clerk from 05 December 2018

c) Adopt a School

The project focused on improving numeracy and literacy from ELM identified foundation phase schools. The Department of Education identified and recommended 10 schools to participate in this program and 15 tutors were recruited, trained and placed in these schools. Currently the following schools benefited from this program: Mohoabatsane JSS, Ilingeletu JSS, Mount Fletcher Village All Inclusive School,

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Ngxaza JSS, Maclear Public School, Lukhanyisweni JSS, Elunyaweni JSS, Chebenca JSS, Fletcherville JSS and Solomzi JSS.

d) Bridge of Hope

Bridge of Hope for the year under review supported seven projects as part of celebrating 100 years of centenary and women's month celebration. These projects were:

- ✓ Donation of R10 000 voucher for soup kitchen was handed over to the United Presbyterian Church to buy groceries for their soup kitchen which supports destitute and needy families.
- ✓ Cheshire Home, an NPO in Mount Fletcher, was supported with renovations.
- ✓ Lonwabo crèche was supported with painting of its walls.
- ✓ The Office of the Mayor in partnership with Raising Innovative and Visionary African Pillars provided donated toiletries to needy students that were identified by School management team to Umthawelanga High School. The package of the toiletries included sanitary towels in which ELM handed over 100 packs of sanitary towels to the young girls.
- ✓ On the 15 October 2018, the Honourable Mayor handed over an RDP house to elderly couple Mr. Puseletso Kete 81 years old and Mrs. Sindiswa Mvulane 50 years old, the house was furnished with a bed and its bedding linen, electric 4 burner stove, Kitchen table with chairs. The couple is dependent on social grants for living.
- ✓ The Office of the Mayor partnered with the Department of Education to award twenty (20) trophies to motivate schools and learners in our district.
- ✓ Three (3) female rape victims of the same family from Lower Sinxako who were raped by four (4) unknown men were visited by Councillors and officials. This incident occurred on payday and the victims were on their way home with groceries and during this saga their groceries were damaged and spilt. This was a sad day for the victims and their families as they are all dependent on child support grant. The Office of the Mayor donated groceries to the victims and also coordinated provision of counselling by the Department of Social Development.

3.11.7 People with Disability (PWD)

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

People with Disability Strategy (PWD) was developed during the year 2017-2018. This reviewed PWD strategy focused on economic empowerment through creation of employment opportunities; establishment of cooperatives and small/micro enterprises, mainly in areas of manufacturing and agriculture; social upliftment of people with disability through education, skills development, communication and information-sharing; building of accessible infrastructure including transport. This has been a tool to find expression for PWD programs within the municipal integrated development plan. Two centers have been identified and signed service level agreement with the municipality to render the following services; Act as information centers for PWDs, Care and support for PWDs in Elundini Households, Roadshows/Awareness in the following wards 3, 4, 7, 8, 9, 10, 11, part of 15, 16 and part of 17. During the year under review, the following were done:

Deliverables	Activities	Timelines	Report
Act as information center for PWD	<p>Provide support for members of the public regarding PWD issues in the Centre (walk ins). Rights, referrals, information sharing etc.</p>	2018-2019	<p>422 people visited in the centers</p> <p>These walk-ins comprises of doctors, physiotherapy and occupational health therapists, potential funders, social workers, parents to the children with disabilities and community members.</p> <p>Information shared and assistance offered: basic admission requirement to the centers, funding opportunities, referrals, home visits, physiotherapy for the children and PWD, health check-ups for PWD and care givers, donations, availability of sporting opportunities, care and support advices for family members living with PWDs in their homes and information on rights for PWDs.</p>
Community Education on the awareness road	<p>Organize 2 village awareness campaigns in the communities in the</p>	2018-2019	<p>Number of people reached: 348</p> <p>villages reached: Zwelitsha, Mahlake, Nkamane, Tsekong, Ngqayi, Ilisilomzi location , Nkululekweni,</p>

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

shows and campaigns	wards specified above Organize 2 road shows in the communities in the towns of the wards specified above	and Mangoloaneng wards: 12, 7, 8, 15, 9 number referrals: 17 referral destinations: SASSA, Home Affairs
Care and Support house holds	Conducts door to door visits in the villages of the specific wards above.	Siyamthanda center for the Disabled Number of people reached: 560 villages reached: Mcambalala, Zwelitsha, Msasangeni Batlokoa Tribal Authority, Lower Tsitsana Clinic Hlankomo, Batlokoa JSS, Mdeni Methodist Church Hall Mdeni A/A, Etyeni Tribal Authority Zwelitsha, Famini Komkhulu, Ntabamkitha, Powulini Village, Magwaca, Katkop, Sakhuthe and Sigoga Wards: 4, 8, 7,16 number referrals: 24 referral destinations: Department of Education

3.11.8 HIV/AIDS Coordination

In this financial year the municipality budgeted an amount of R1 003 686 to ensure coordinated response to HIV in Elundini through the Local Aids Council. The municipality supported 17 Home Community Based Care organisations (HCBC's) with an amount of **R11-500** each as stipend and in return the HCBC submitted quarterly reports of the services rendered as stipulated in the partnership agreement. In addition ELM has a responsibility to coordinate the Local Aids Council activities, all of this

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

is covered under the above mentioned budget. Local Aids Council is functional and has successfully held all its quarterly meeting. The municipality hosted the World Aids Day event in partnership with sector departments and other civil society organisations. The municipality also conducted debriefing sessions for care givers.

EMPLOYEES IN THE SPECIAL PROGRAMS UNIT

The table below depicts the number of employees in the Special Programmes Unit:

Table 25: SPU Employees

Job Level	Year 2018		Year 2019		
	Employees	Post	Employees	Vacancies (fulltime equivalent)	Vacancies (as a % of total posts)
	No.	No.	No.	No.	%
0 – 3	0	0	0	0	
4 – 6		1	1	0	
7 – 9				0	
10 – 12	3	3	3	0	
13 – 15	0	0		0	
16 – 18	1	1	1	0	
19 – 20	0	0	0	0	
Total	4	5	5	0	

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

3.12 COMPONENT E: ENVIRONMENTAL PROTECTION

3.12.1 POLLUTION CONTROL

ELM does not have an Air Quality Management Plan and air pollution bylaws in place and will have to consider developing these to primarily comply with the Air Quality Act, of 2004 as well as to ensure regular monitoring and management of air pollution in the area given various sources including P.G Bison factory operations. One of the standing programs is clearing of illegally dumped waste next to or near rivers, streams, ditches and wetlands. Some of the wastes that gets removed includes used baby nappies, discarded household chemicals, lithium batteries, light bulbs etc. In all our formal landfill sites, burning of waste is strictly prohibited in order to prevent possible air pollution by contaminants from burning waste. Another control is prohibition and monitoring of incoming waste into landfills to ensure that no hazardous waste and health care risk waste is accepted as these elevate levels of ground/surface and underground water pollution.

The grassing and continuous maintenance of green spaces and landscaping of polluted open spaces through illegal dumping of waste is recognized by the municipality as having a major contribution to preventing windblown dust and therefore air pollution. Air pollution through poorly maintained vehicles is negligent in the municipality as law enforcement offices deal with such on a daily basis.

The only major source of air pollutants is recognized as PG Bison plant which through research and information published is sufficiently managed through monitoring of license conditions by the relevant provincial department. Attempts are being made to enforce mechanisms of disclosure by PG Bison to over and above give assurance to the municipality that the levels of contaminants emanating therefrom are not toxic and significant enough to warrant any cause for concern. This shall be put into operation by the 2020/21 financial year.

3.13 COMPONENT F: HEALTH

In terms of the powers and functions, Environmental Health Services is a function of the JGDM while Primary Health Care services have been provincialized. ELM's responsibilities with regard to Municipal Health Services are in the area of issuing of business licenses to food handling premises as well as

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

registration of general dealers, control of nuisances, overgrown erven, enforcement of related by-laws and National regulations as well as other issues which may affect public health.

In all Mayoral Outreach Programme held by the Mayor in her constituencies, the issue of health facilities always came up as a need because there ones that are available are either not easily accessible because of bad road infrastructure or are not enough to accommodate all community members they are supposed to service.

3.13.1 CLINICS

ELM does not run any clinics and the functioning of clinics is the competency of the Department of Health.

3.13.2 AMBULANCE SERVICES

ELM does perform any ambulance services and this function is the competency of the Provincial Department of Health.

3.13.3 HEALTH INSPECTION; FOOD AND ABATTOIR LICENSING AND INSPECTION; ETC

As guided by Schedule 5 Part B of the powers and functions as defined in terms of the Local Government: Municipal Structures Act as amended, ELM is only responsible for issuing licenses to businesses who trade by selling food and to street traders. Health inspection of these businesses is the responsibility of the district municipality. At the current moment ELM does not operate any abattoir and the existing abattoir applied for its operating license from the Department of Rural Development and Agrarian Reform (DRDAR) and Department Health.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

COMPONENT G: SECURITY AND SAFETY

3.13.4 POLICE, TRAFFIC AND LAW ENFORCEMENT

ELM does not have municipal police as yet and policing function is still a competency of the SAPS. The form of policing for the prevention of security and safety is rendered through traffic and law enforcement services. Currently the municipality has 14 officers. The Public Safety Unit's structure was amended to provide for two Management Representative Positions which would work hand in hand with traffic officers in their daily duties particularly at the driving learner testing centers (DLTCs). The table below depicts staff compliment within the traffic section:

Table 26: Traffic Officers

Employees: Traffic Officers					
Job Level	Year 2018		Year 2019		
	Employees	Posts	Employees	Vacancies (fulltime equivalents)	Vacancies (as a % of total posts)
Police					
Administrators	No.	No.	No.	No.	%
Chief Traffic& Law Enforcement	1	1	1	0	0%
Other Police Officers					0%
0 – 3					0%
4 – 6	3	6	2	4	66.7%
7 – 9	-	-	-	0	0%
10 – 12	5	11	5	6	54.5%
13 – 15	0	0	0	0	0%
16 – 18	0	0	0	0	0%
19 – 20	0	0	0	0	0%
Total	9	18	8	10	0%

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

3.13.5 FIRE

ELM has fire services which at present are not responsive enough to meet current demands especially considering the geographic spread of the areas needing to be serviced. Such impact heavily on response times in the event of a fire breaking out. This often leads to responses however which do not effectively ensure the fire is extinguished before much destruction and threats to lives. Notwithstanding these challenges ELM embarked on an intensive further training of fire officers to ensure they were competent in their work. ELM also upgraded its fire engines by purchasing an additional skid unit for the two fire officers. The challenge for now related to procurements delays in securing proper protective clothing for fire fighters.

COMPONENT H: SPORT AND RECREATION

3.13.6 SPORT AND RECREATION

ELM has had challenges when it comes to the provisions of public amenities (particularly sportfields and community halls) largely due to poor performance of contractors who frequently end up abandoning projects. This has been a growing trend over the years which the municipality seeks to address.

The table below depicts the expenditure the municipality incurred in constructing sports field during the year under review:

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Table 27: Capital Expenditure on Sports Fields

Capital Projects	Capital Expenditure Year 2019: Community Halls					R' 000
	Budget	Adjustment Budget	Actual Expenditure	Variance from original budget	Total Project Value	
Total All	10 197 923.98	10 197 923.98	7 993 757.43	2 204 166.55	34 445 177.10

Sport and Recreation Policy Objectives Taken From IDP

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

3.13.7 EXECUTIVE AND COUNCIL

This section deals with the function of the executive office that includes the Offices of the Mayor, the Speaker and the Municipal Manager. The table below depicts the number of employees and vacancies in each level:

Table 28: Executive and Council

Employees: The Executive and Council						
Task Grade	Year 2018		Year 2019			
	Employees	Posts	Employees	Vacancies (fulltime equivalents)	Vacancies (as a % of total posts)	
	No.	No.	No.	No.	%	
0 – 3	-	-	-	-	-	-
4 – 6	1	1	1	-	-	-
7 – 9	8	4	4	-	-	-

13 – 15	2	3	3	-	-	
16 – 18	5	6	5	1	16.7%	
19 – 20	-	1	1	-	-	
Total	28	32	29	3	9.4%	

3.13.8 FINANCIAL SERVICES

The financial services department has four (4) functions, viz. Supply Chain Management; Income and Revenue; Assets Management and Budget Planning, Monitoring and Reporting. The overall objective of the department is to ensure that the municipality remains financial viable.

3.13.9 HUMAN RESOURCE SERVICES

Critical to the survival of any institution is the development and functioning of its human resources. ELM as a small and rural municipality constantly finds itself competing with the private and public sector for limited human capital resources as a result ELM at times find it difficult to attract and retain competent and critical skills. The human resources department is an integral part of Corporate Services and is mainly responsible for the following functions as contained within the municipal IDP:

- ✓ Effective and efficient Recruitment and Selection of personnel.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- ✓ Effective administration of staff benefits.
- ✓ Maintain sound Labour Relations.
- ✓ Ensure Occupational Health and Safety of employees.
- ✓ Wellness
- ✓ Training and development of staff and unemployed.
- ✓ Employment Equity development; implementation and reporting.
- ✓ Organizational design and development.
- ✓ Performance Management of staff below section 57 managers.

ELM has during the year under review cascaded its performance management system from the level of directors and managers to task grade 12 employees for individual performance and all these employees signed their performance agreements. Quarterly, mid-term and annual performance assessments were also conducted and all deserving employees were duly rewarded for their outstanding performance. All new posts and those that were added additional responsibilities as a result organizational review had their job description reviewed. ELM was awarded for its outstanding performance by SALGA for its outstanding performance during job evaluation process. As part of an on-going Human Resources Development process, ELM has recently reviewed a number of HR related strategies and policies.

3.13.10 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

1. Formulation of various ICT Governance Documents and Strategies

- ✓ ELM has constantly tried to ensure that it is operating with high integrity ICT Governance Standards to ensure compliance with regulations both local and internationally recognised standards. In this regards ELM took upon itself to ensure that it complies with aforementioned ICT Governance Standards in line with KING IV, ISO/IEC 38500, ISO 27001/2 POPI ACT and other relevant standards and practices by reviewing and benchmarking its existing policies, procedures, frameworks and strategies annually in order to align them with current updated standards.
- ✓ ELM appointed a suitable qualified service provider for a period of 12 months to assist in reviewing and developing the items listed below:

a. Implementation of the IT Governance as per the KING IV and COBIT recommendations:

- Review disaster recovery plan, operationalize and update to talk to the IT setup;

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

- Prepare/review procedure manuals and team notes for disaster recovery;
- Supply and install Water and food prohibition signs at the main and disaster recovery site;
- Identify key documents and equipment for recovery plans and move copies to the recovery site;
- Develop IT Physical Access to Server Room Procedure;
- Review IT Risk Register;
- Develop IT Risk Management Procedure;
- Develop Change Control Procedure;
- Develop Backup and Recovery Procedure;
- Develop Patch Management Procedure;
- Develop Firewall Management Procedure;
- Develop Antivirus Management Procedure.

b. Implementation of Information Security:

- Carry out IT security awareness initiatives and campaigns.
- Support day-to-day administration of various firewalls.
- Proactively assess potential items of risk and opportunities of vulnerability in the network.
- Design and implement IT Security policies and procedures for the administration of security measures over the network, operating system.
- Implement strong password controls to authenticate system access. Incorporate this aspect in the IT Security policy.
- Ensure the ELM correctly configures firewalls routers within the network environment to ensure optimal protection against unauthorised access.
- Ensure that there is anti-virus software across the organisation to protect information systems.
- Ensure there is patch management process to prevent exploitation of vulnerabilities.
- Ensures that activities within the system network, including databases are tracked by using audit trails by someone independent of administration functions.
- Ensure that system configuration detect security vulnerabilities and that incidents are monitored, reported and resolved on a regular basis.
- Carry out checks / tests for effectiveness that Firewall, Anti-Virus and Spyware solutions to

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ensure the ELM's email, intranet and internet are protected.

- Perform additional related responsibilities as required to ensure compliance with the Auditor General's requirements and relevant laws and regulations.

c. Development of IT Master Systems Plan:

- Interview key stakeholders.
- Conduct the Business, Information, Applications, and Technology GAP Analysis.
- Develop IT Master Systems Plan that incorporates Implementation Plan.

d. Implementation of POPI:

- Conduct POPI Readiness Assessment.
- Develop Plan of Action for POPI Compliance that includes the development of Data Protection Policy and Procedures, Data Privacy Plan.
- Conduct POPI Compliance Assessment to comprehensively evaluate how Plan of Action is implemented to comply with POPI.

e. Development and Implementation of Business Continuity (BC) and IT Disaster Recovery (DR) Plans:

- Conduct Business Impact Analysis and Risk Assessment.
- Identify the Recovery Strategies.
- Prepare Business Continuity and IT Disaster Recovery Plans.
- Educate and Train on BC and IT DR Plans.
- Test BC and IT DR Plans and update accordingly.

The abovementioned activities have since been completed and presented to council for approval and adoption and are considered as official municipal guideline documents that will enhance service delivery.

2. Installation of new telephone system and cost containment strategy implementation

- ✓ ELM has previously been using a telephone system that was dependent on ordinary telephone lines. The new telephone system that has been deployed is referred to VOIP (**Voice Over Internet Protocol**) system. The system work over ELM's **LAN (Local Area Network)** instead of

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ordinary telephone lines. The main purpose to deploy this system within ELM's is to save costs when making calls to remote sites (**Ugie and Mount Fletcher**) as the system will read the sites as internal extensions instead of a foreign external phone number which bills the municipality.

- ✓ The telephone system has been deployed at the main site in Maclear and is now fully functional.
- ✓ Service Provider has been appointed to renew all network cabling and add new networking cables in newly developed offices and areas that were previously connecting via wireless. The main purpose the renewal is to ensure full compliance of the VOIP system as it cannot work through wireless connections.
- ✓ In terms of implementing the cost containment strategy, pins with airtime limits have been allocated to users and are being managed monitored by the new Ipecs system which automatically cuts off the user pins should they reach their monthly allocated pins.
- ✓ In addition to the abovementioned, the municipality is in the process of cutting allocated phone call pins in half in order to implement the cost containment strategy.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

3.13.11 PROPERTY; LEGAL; RISK MANAGEMENT AND PROCUREMENT SERVICES

Properties

During the year under review, ELM conducted a comprehensive infrastructure asset register update which identified properties that were registered in the municipality's name in the deeds whereas they were not part of the asset register. This exercise also identified properties that were in the asset register and in the name of the municipality in the deeds office, however, the municipality did not have control over these properties, e.g. low cost houses. Accordingly these properties were then removed from the municipality asset register.

Legal

During the year under review, the legal section of ELM facilitated the following litigation matters:

CASE DETAILS	MUNICIPAL ATTORNEYS	NATURE OF CLAIM	CLAIM AMOUNT	PROGRESS
1. SADC Commercial Advertising (PTY) Ltd	Internally handled for now	Claim for services rendered [not detailed]	R35 995.00	On 4 th December 2018, responded giving notice of intention to defend. Nothing further has been undertaken by claimant.
2. Likotoz Projects	Previously approached attorneys Fikile Ntayiya & Associates.	Claim is based on Acknowledgement of debt resulting from erroneous payments effected to the company.	R265 557.89	To redirect instructions to newly appointed panel of attorneys.
3. Zilwa Contractors	Mgxaji Incorporated	Unlawful termination of a contract [Mt Fletcher Craft Centre]	R1 250 000.00	Awaiting for a trial date.
4. X. Mntonintshi	Gray Moodliar Attorneys	Unfair Labour Practice	None	The matter proceeded in the labour Court on 04 th September 2019 and the judgment remains reserved.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

5. SAMWU obo Z. Dube	Gray Moodliar Attorneys	Unfair Dismissal	None	The applicant failed to comply with the Practice Manual, and accordingly, its review application is deemed to have been withdrawn. The file was pended for three months, and within that period the applicant took no further steps. The applicant then served a rule 7A(6) notice together with the transcribed record on 23 July 2019, 112 days out of time. The applicant filed a rule 7A (8)(b) notice, standing by its notice of motion, on 25 July 2019. The Applicant failed to file a replying affidavit. Court file has been indexed and paginated. Await notice set down in respect of the municipality's special pleas.
6. Nangamso Civils		Summons commenced action for additional services rendered: Lehana to Upper Tokwana: Elm 03/039/2013-2014	R961 155.60	Awaiting for a trial date.
7. Mashata Sekhosana	Fikile Ntayiya & Associate	Interdict against land invasion	None	<ul style="list-style-type: none"> • Awaiting for a date of hearing. • May have to seriously consider counsel's Advice on Evidence in the matter.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

8. F. N. Vapi	McFarlen Attorneys	Claim for damaged resulting damaged car because of the municipality's negligence	R85 307.67	Matter is dormant as per attorney's advices.
---------------	-----------------------	--	------------	---

CHAPTER 4 : ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT)

COMPONENT A : 2018/2019 TOP LAYER ANNUAL PERFORMANCE REPORT

The table below depicts the overall top layer 2018/2019 annual performance:

Ref	KPI	Baseline	Annual Target	Revised Target	Overall Performance for 01 July 2018 to Jun 2019			Reasons for deviations, both positive and negative
					Target	Actual	R	
TL1	Number of households in electrification programme connected	22 637	1 100	1 100	1 100	935	O	Budget shortfall after completion of the designs could not allow for the completion of all houses as planned.
TL2	Number of Street lights installed in Maclear	100	70	70	70	70	G

ANNUAL 2018/2019 INSTITUTIONAL PERFORMANCE ANALYSIS REPORT

INSTITUTIONAL ANALYSIS OF TARGETS ACHIEVED

Targets Planned	Targets Achieved	Targets not achieved	Targets partially achieved	% Achieved	% not Achieved	% Partially Achieved
29	17	6	6	58, 6%	20, 7%	20, 7%

2017/2018 INSTITUTIONAL PERFORMANCE ACHIEVEMENT ANALYSIS PER KPA

KEY PERFORMANCE AREAS	TT	TA	TN	TPA	% Achieved
KPA 1: Municipal Transformation and Institutional Development	1	1	-	-	100%
KPA 2: Basic Service Delivery and Infrastructure	19	9	4	6	47, 4%
KPA 3: Local Economic Development	4	3	1	-	75%
KPA 4: Municipal Finance Viability and Management	3	2	1	-	66, 7%
KPA 5: Good Governance and Public Participation	2	2	-	-	100%
TOTAL TARGETS /PERFORMANCE AREA	29	17	6	6	58, 6%

From the table above, it can be noticed that ELM had 29 planned top layer targets for the year under review. Of these planned targets, 17 targets were achieved translating into 58, 6%. Targets that were both partially and not achieved were 6 translating into 20, 7% each. There were various reason for either not fully achieving the targets or not achieving them at all and the reasons for those variances and remedial actions have been provided in the table above.

2018/2019 ANNUAL PERFORMANCE ANALYSIS REPORT

As can be seen from the tables above, a total of 123 departmental targets were planned for the year under review, **99 (80, 5%)** of planned targets were achieved, **12 (9, 8%)** of planned targets were not achieved and another **12 (9, 8%)** of planned targets were partially achieved.

4.1 ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART II)

As part of the IDP review process, the ELM has reviewed its Organogram to ensure that it is able to deliver on its constitutional obligations. In terms of the approved Organogram, ELM during the year under review had 343 positions and employed 291 employees and had 52 vacancies equalling 15, 2% vacancy rate.

4.2 COMPONENT B: INTRODUCTION TO THE MUNICIPAL PERSONNEL

4.2.1 EMPLOYEE TOTALS, TURNOVER AND VACANCIES

Of the 291 filled positions during the year under review, 141 are female employees, constituting 48, 5% of the total workforce and male employees are 150 making 51, 5% of the total workforce. Given these figures, ELM has not yet achieved the 50/50 streak in terms of Employment Equity it is envisaging to achieve. Below is the gender breakdown of staff compliment, including employees living with disabilities, of Elundini Local Municipality per occupational level:

Table 41: All employees

Occupational Levels	Male				Female				Foreign Nationals		Total
	A	C	I	W	A	C	I	W	Male	Female	
Top management	1										1

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

4.5 PERFORMANCE REWARDS

Section 57 Managers, all Managers and other staff members up to Task Grade 12 sign their performance agreements at the beginning of each financial year within the prescribed period. Quarterly, midyear and annual performance assessments are done based on the output plans contained in the managers' performance agreements that are linked to ELM's SDBIP. Performance rewards are then paid to all deserving individuals who had exceeded the performance of their targets and the payment of the performance rewards is governed by the Performance Management System ELM has adopted. The maximum amount of the performance reward paid to the deserving individual is 14% of that person's total package.

COMPONENT D: CAPACITATING THE MUNICIPAL WORKFORCE

Another ingredient for the survival and productivity of any institution is the development and capacitation of its workforce. The ELM, after reviewing its annual skills development plan, sets aside funding, within its limited resources, for skills development for both councillors and employees. The tables below depicts the type of training initiatives benefited both councillors and employees and the expenditure incurred.

4.6 SKILLS DEVELOPMENT AND TRAINING

The table below depicts the number and types of training that both councillors and employees benefited on during the year under review:

Management level	Gender	Employees in post as at 30 June 2019	Skills Matrix											
			Number of skilled employees required and actual as at 30 June 2019											
			Learnerships			Skills programmes & other short courses			Other forms of training			Total

APPROVAL OF FINANCIAL STATEMENTS

APPROVAL OF ACCOUNTING OFFICER

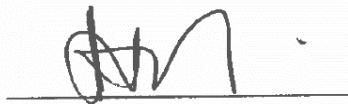

I am responsible for the preparation of these annual financial statements for the year ended 30 June 2019, which are set out on pages 1 to 82 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year to 30 June 2020 and am satisfied that the Municipality can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the annual determinations of the Minister of Cooperative Governance and Traditional Affairs in accordance with this Act.

Material variances are considered to be any variances greater than R2.5 million.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1 ACCOUNTING POLICIES

1.01 BASIS OF PREPARATION

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, unless specified otherwise.

The financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 (Revised – November 2013) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

Assets, liabilities, revenue and expenses have not been offset, except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant notes to the financial statements.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

1.02 TRANSITIONAL PROVISIONS

The Municipality resolved to take advantage of the following transitional provisions:

In term of Directive 7 - "The Application of Deemed Cost on the Adoption of Standards of GRAP", the Municipality applied deemed cost to Investment Property and Property, Plant and Equipment where the acquisition cost of an asset could not be determined.

1.03 PRESENTATION CURRENCY

The financial statements are presented in South African Rand, rounded off to the nearest Rand, which is the Municipality's functional currency.

1.04 GOING CONCERN ASSUMPTION

These financial statements have been prepared on a going concern basis.

1.05 COMPARATIVE INFORMATION

1.05.1 Prior Year Comparatives

When the presentation or classification of items in the financial statements are amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatement of comparative information. The nature and reason for the reclassification is disclosed.

Where material accounting errors, which relate to prior periods, have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.05.2 Amended Accounting Policies

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements.

No significant amendments were made to the accounting policy in the current year.

1.06 MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total operating expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

1.07 BUDGET INFORMATION

Budget information is presented on the accrual basis and is based on the same fiscal period as the actual amounts.

The Statement of Comparison of Budget and Actual Amounts includes the comparison between the approved and final budget amounts, as well as a comparison between the actual amounts and final budget amounts.

The disclosure of comparative information in respect of the previous period is not required by the Standards of GRAP.

1.08 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

1.08.1 Effective Dates Determined

Where a Standard of GRAP has been issued but is not yet effective, the Municipality may resolve to early adopt such a Standard of GRAP if an effective date has been determined by the Minister of Finance.

The Municipality resolved to early adopt the following Standards of GRAP which were issued but are not yet effective:

Standard	Description	Effective Date
GRAP 20	Related Party Disclosures	1 April 2019
GRAP 108	Statutory Receivables	1 April 2019

The effect of the above-mentioned Standards of GRAP which were early adopted is considered insignificant. Accounting policies for these Standards of GRAP were already formulated in the prior year's financial statements. The only effect is additional disclosure requirements.

The Municipality resolved to early adopt the following amended Standards of GRAP which were issued but are not yet effective:

Standard	Description	Effective Date
GRAP 1 (2018)	Presentation of Financial Statements	1 April 2020
GRAP 21 (2018)	Impairment of Non-cash-generating Assets	1 April 2020
GRAP 26 (2018)	Impairment of Cash-generating Assets	1 April 2020
GRAP 104 (2018)	Financial Instruments	1 April 2020

The effect of the above-mentioned amended Standards of GRAP which were early adopted is considered insignificant. The amendments to the Standards of GRAP mainly relate to the clarification of accounting principles.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

The Municipality further resolved not to early adopt the following Standards of GRAP and Interpretations of the Standard of GRAP which were issued but are not yet effective:

1.08.1.1 GRAP 18 - Segment Reporting (Effective 1 April 2020)

The objective of this Standard is to establish principles for reporting financial information by segments.

Preliminary investigations indicated that, other than additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.08.1.2 GRAP 32 - Service Concession Arrangements: Grantor (Effective 1 April 2019)

The objective of this Standard is to prescribe the accounting for service concession arrangements by the grantor and a public sector entity.

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.08.1.3 GRAP 34 - Separate Financial Statements (effective 1 April 2020)

The objective of this Standard is to prescribe the accounting and disclosure requirements for investments in controlled entities, joint ventures and associates when an entity prepares separate financial statements.

No significant impact is expected as the Municipality has no investments in any entities.

1.08.1.4 GRAP 35 - Consolidated Financial Statements (effective 1 April 2020)

The objective of this Standard is to establish principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.

No significant impact is expected as the Municipality does not control any entities.

1.08.1.5 GRAP 36 - Investments In Associates And Joint Ventures (effective 1 April 2020)

The objective of this Standard is to prescribe the accounting for investments in associates and joint ventures and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures.

No significant impact is expected as the Municipality does not have investments in any associates or joint ventures.

1.08.1.6 GRAP 37 - Joint Arrangements (effective 1 April 2020)

The objective of this Standard is to establish principles for financial reporting by entities that have an interest in arrangements that are controlled jointly (i.e. joint arrangements).

No significant impact is expected as the Municipality does not have an interest in any arrangements that are controlled jointly.

1.08.1.7 GRAP 38 - Disclosure Of Interests In Other Entities (effective 1 April 2020)

The objective of this Standard is to require an entity to disclose information that enables users of its financial statements to evaluate:

- (a) the nature of, and risks associated with, its interests in controlled entities, unconsolidated controlled entities, joint arrangements and associates, and structured entities that are not consolidated; and
- (b) the effects of those interests on its financial position, financial performance and cash flows.

No significant impact is expected as the Municipality does not have an interest in any entities, associates, joint ventures or joint arrangements.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.08.1.8 GRAP 109 - Accounting By Principles And Agents (Effective 1 April 2019)

The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement.

No significant impact is expected as the Municipality's current treatment is already in line with the Standard's requirements.

1.08.1.9 GRAP 110 - Living And Non-Living Resources (Effective 1 April 2020)

The objective of this Standard is to prescribe the:

- (a) recognition, measurement, presentation and disclosure requirements for living resources; and
- (b) disclosure requirements for non-living resources.

Preliminary investigations indicated that the Municipality's non-living resources do not fall within the scope of this Standard.

1.08.1.10 iGRAP 1 (Revised) - Applying The Probability Test On Initial Recognition Of Revenue (effective 1 April 2020)

This Interpretation addresses the manner in which an entity applies the probability test on initial recognition of:

- (a) exchange revenue in accordance with GRAP 9; and
- (b) non-exchange revenue in accordance with GRAP 23.

No significant impact is expected as the Municipality's current treatment is already to a large extent in line with the Interpretation's requirements.

1.08.1.11 iGRAP 17 - Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset (effective 1 April 2019)

This Interpretation of the Standards provides guidance to the grantor where it has entered into a service concession arrangement, but only controls a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease.

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.08.1.12 iGRAP 18 - Recognition And Derecognition Of Land (Effective 1 April 2019)

This Interpretation of the Standards of GRAP provides guidance on when an entity should recognise and derecognise land as an asset in its financial statements.

No significant impact is expected as the Municipality's current treatment is already in line with the Interpretation's requirements.

1.08.1.13 iGRAP 19 - Liabilities To Pay Levies (Effective 1 April 2019)

This Interpretation provides guidance on the accounting for levies in the financial statements of the entity that is paying the levy. It clarifies when entities need to recognise a liability to pay a levy that is accounted for in accordance with GRAP 19.

No significant impact is expected as the Municipality's current treatment is already in line with the Interpretation's requirements.

1.08.1.14 iGRAP 20 - Accounting for Adjustments to Revenue (effective 1 April 2020)

This Interpretation clarifies the accounting for adjustments to:

- (a) exchange and non-exchange revenue charged in terms of legislation or similar means; and
- (b) interest and penalties that arise from revenue already recognised.

No significant impact is expected as the Municipality's current treatment is already to a large extent in line with the Interpretation's requirements.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

.08.2 Effective Dates Not Yet Determined

Where a Standard of GRAP has been issued but not yet effective and the Minister of Finance has not yet determined an effective date, the Municipality may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event.

All Standards of GRAP currently issued, have effective dates.

.09 INVESTMENT PROPERTY

.09.1 Initial Recognition

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, for administration purposes, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use, is also classified as investment property.

Investment property is recognised as an asset when it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the Municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially measured at cost on its acquisition date. The cost of investment property is the purchase price and other costs attributable to bring the asset to a condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an investment property is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition and any other costs attributable to bring the asset to a condition necessary for it to be capable of operating in the manner intended by the Municipality. The cost of self-constructed investment property is the cost at date of completion. Transfers are made to or from investment property only when there is a change in use.

Where investment property is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

.09.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of investment property are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

.09.3 Depreciation – Cost Model

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Depreciation of an asset ceases at the date that the asset is derecognised.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The depreciation method is reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

At each reporting date the Municipality assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate accounted for on a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

	YEARS
Buildings	105

1.09.4 Impairment

Investment property is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.09.5 Derecognition

An investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Financial Performance in the period of the retirement or disposal.

Compensation from third parties for items of investment property that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

1.10 PROPERTY, PLANT AND EQUIPMENT

1.10.1 Initial Recognition

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost or fair value of the item can be measured reliably.

Items of property, plant and equipment are initially recognised at cost on its acquisition date. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired through a non-exchange transaction, the cost is deemed to be equal to the fair value of that asset as at date of acquisition and any other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.10.2 Subsequent Measurement - Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits or service potential associated with the asset.

1.10.3 Depreciation

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Depreciation of an asset ceases at the date that the asset is derecognised.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The depreciation method is reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

At each reporting date the Municipality assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate accounted for on the a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

	YEARS
Land and Buildings	20 - 100
Infrastructure	5 - 120
Leased Assets	3 - 7
Other Property, Plant and Equipment	3 - 15

1.10.4 Impairment

Property, plant and equipment is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.10.5 Derecognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

1.11 INTANGIBLE ASSETS

1.11.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

The Municipality recognises an intangible asset only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the Municipality and the cost or fair value of the asset can be measured reliably.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Intangible assets are initially recognised at cost on its acquisition date. The cost of an intangible asset is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost is measured at its fair value at the date of acquisition and any other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, its deemed cost is the carrying amount of the asset(s) given up.

Internally generated intangible assets are subject to a strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- (a) the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (b) its intention to complete the intangible asset and use or sell it;
- (c) its ability to use or sell the intangible asset;
- (d) how the intangible asset will generate probable future economic benefits or service potential;
- (e) the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- (f) its ability to measure reliably the expenditure attributable to the intangible asset during its development.

1.11.2 Subsequent Measurement - Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and any accumulated impairments losses.

1.11.3 Amortisation

The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is still subject to an annual impairment test.

Amortisation of an intangible with a finite life asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Amortisation ceases at the date that the asset is derecognised.

Amortisation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the intangible assets. The amortisation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The residual value of an intangible asset with a finite useful life is considered to be zero.

The amortisation period and amortisation method are reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

The annual amortisation rates are based on the following estimated useful lives:

	Years
Computer Software	5

1.11.4 Impairment

Intangible assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.11.5 Derecognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.12 IMPAIRMENT OF NON-MONETARY ASSETS

An impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

Cash-generating assets are assets held with the primary objective of generating a commercial return. Non-cash-generating assets are assets other than cash-generating assets.

The Municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Municipality estimates the recoverable amount of the asset.

1.12.1 Recoverable Amount Of Cash-Generating Assets

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

The best evidence of fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

1.12.2 Recoverable Amount Of Non-Cash-Generating Assets

The recoverable service amount is the higher of a non-cash generating asset's fair value less costs to sell and its value in use.

The value in use for a non-cash generating asset is the present value of the asset's remaining service potential. Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

1.12.3 Impairment Loss

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation decrease in accordance with that Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.12.4 Reversal Of An Impairment Loss

The Municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

A reversal of an impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation increase in accordance with that Standard of GRAP.

After the reversal of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.13 INVENTORIES

1.13.1 Initial Recognition

Inventories are assets:

- (a) in the form of materials or supplies to be consumed in the production process;
- (b) in the form of materials or supplies to be consumed or distributed in the rendering of services;
- (c) held for sale or distribution in the ordinary course of operations; or
- (d) in the process of production for sale or distribution.

Inventories are recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost of the inventories can be measured reliably.

Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Trade discounts, rebates and other similar items are deducted in determining the costs of purchase.

Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventories are acquired through a non-exchange transaction, the cost is measured at the fair value as at the date of acquisition plus any other costs in bringing the inventories to their current location and condition.

1.13.2 Subsequent Measurement

When inventories are sold, exchanged or distributed the carrying amount of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expense is recognised when the goods are distributed, or related service is rendered.

Inventories are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution. Current replacement cost is the cost the Municipality would incur to acquire the asset on the reporting date.

The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories is recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The basis of allocating cost to inventory items is the first-in-first-out (FIFO) method.

At reporting date, the water volume is determined by way of dip readings and the calculated volume in the distribution network. Water inventory is then measured by multiplying the cost per kilo litre of purified water by the amount of water in storage.

Cost of land held for sale is assigned by using specific identification of their individual costs.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.14 EMPLOYEE BENEFITS

Defined-contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year during which they become payable.

Defined-benefit plans are post-employment benefit plans other than defined-contribution plans.

1.14.1 Post-Retirement Benefits

The Municipality provides retirement benefits for its employees and councillors. Retirement benefits consist of defined-contribution plans and defined-benefit plans.

1.14.1.1 Multi-Employer Defined Benefit Plans

The Municipality contributes to various National- and Provincial-administered defined benefit plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year they become payable. These defined benefit funds are actuarially valued on the projected unit credit method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

1.14.1.2 Post Retirement Medical Benefits

The Municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 60% as contribution and the remaining 40% is paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined. The plan is unfunded.

Contributions are recognised in the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability is calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the present value of the defined benefit obligation at the reporting date, minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly, plus any liability that may arise as a result of a minimum funding requirements. Payments made by the Municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, are recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.14.1.3 Pension And Retirement Fund Obligations

The Municipality provides retirement benefits for its employees and councillors. Defined contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year they become payable. The defined benefit funds, which are administered on a provincial basis, are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities. The contributions and lump sum payments are recognised in the Statement of Financial Performance in the year they become payable. Sufficient information is not available to use defined benefit accounting for a multi-employer plan. As a result, defined benefit plans have been accounted for as if they were defined contribution plans.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.14.2 Long-Term Benefits

1.14.2.1 Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the Municipality. The Municipality's obligation under these plans is valued by independent qualified actuaries annually and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.14.3 Short-Term Benefits

1.14.3.1 Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at reporting date and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term. Accumulated leave is vesting.

1.14.3.2 Bonuses

The liability for staff bonuses is based on the accrued bonus for each employee at reporting date.

1.14.3.3 Provision For Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, is recognised as it accrue to Section 57 employees. Provisions are based on the employment contract stipulations as well as previous performance bonus payment trends.

1.14.3.4 Other Short-Term Employee Benefits

When an employee has rendered service to the Municipality during a reporting period, the Municipality recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- a) as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the Municipality recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- b) as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

1.15 PROVISIONS

A provision is a liability of uncertain timing or amount. Provisions are recognised when the Municipality has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made.

Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when it is virtually certain that reimbursement will be received if the Municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement will not exceed the amount of the provision. In the Statement of Financial Performance, the expense relating to a provision may be presented net of the amount recognised for a reimbursement.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The Municipality has a detailed formal plan for the restructuring identifying at least:
 - the business or part of a business concerned;
 - the principal locations affected;
 - the location, function and approximate number of employees who will be compensated for terminating their services;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented.
- (b) The Municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is derecognised.

1.16 LEASES

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

1.16.1 Municipality As Lessee

1.16.1.1 Finance Leases

At the commencement of the lease term, the Municipality recognises assets acquired under finance leases as assets and the associated lease obligations as liabilities in the Statement of Financial Position.

At the inception of the lease, the assets and liabilities are recognised at the lower of the fair value of the leased property and the present value of the minimum lease payments. The discount rate to be used in calculating the present value of the minimum lease payment is the interest rate implicit in the lease. If the rate implicit to the lease is not available the Municipality's incremental borrowing rate is used. Any initial direct costs of the Municipality are added to the amount recognised as an asset.

Subsequent to initial recognition, the minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge are allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents, if any, are charged as expenses to the Statement of Financial Performance in the periods in which they are incurred. The leased assets are accounted for in accordance with the stated accounting policies applicable to the assets.

1.16.1.2 Operating Leases

Lease payment under an operating lease is recognised as an expense in the Statement of Financial Performance on a straight-line basis over lease term, unless another systematic basis is more representative of the time pattern of the user's benefit. The difference between the straight-lined expenses and actual payments made will give rise to a liability.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.16.2 Municipality As Lessor

1.16.2.1 *Finance Leases*

The Municipality recognises lease payments receivable under a finance lease as assets (receivable) in the Statement of Financial Position. The asset (receivable) is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the Municipality, discounted at the interest rate implicit in the lease.

The asset (receivable) is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis in the Statement of Financial Performance.

1.16.2.2 *Operating Leases*

Operating lease revenue is recognised in the Statement of Financial Performance on a straight-line basis over the term of the relevant lease, unless another systematic basis is more representative of the time pattern in which benefit derived from the leased asset is diminished. The difference between the straight-lined revenue and actual payments received will give rise to an asset.

1.17 FINANCIAL INSTRUMENTS

1.17.1 Initial Recognition

Financial instruments (financial assets and financial liabilities) are recognised on the Municipality's Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

Financial instruments are initially recognised at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of the Municipality, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

1.17.2 Subsequent Measurement

Financial instruments are categorised as follows:

- (a) **Financial instruments at amortised cost** are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. They are included in current assets or current liabilities, except for maturities greater than 12 months, which are classified as non-current. After initial recognition, both financial assets and financial liabilities are measured at amortised cost, using the effective interest rate method. Financial assets are also subject to an impairment review.
- (b) **Financial instruments at cost** are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured. Both financial assets and financial liabilities are subsequently measured at cost. Financial assets are subject to an impairment review.
- (c) **Financial instruments at fair value** comprise of financial assets or financial liabilities that are:
 - (i) derivatives;
 - (ii) combined instruments that are designated at fair value;
 - (iii) instruments held for trading;
 - (iv) non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; or
 - (v) financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Both, financial assets and financial liabilities are subsequently measured at fair value with unrealised gains or losses recognised directly in the Statement of Financial Performance.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.17.3 Impairment And Uncollectability Of Financial Assets

Financial assets, other than those at fair value, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence of impairment of financial assets.

1.17.3.1 *Financial Assets Measured At Amortised Cost*

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Cash flows relating to short-term financial assets are not discounted where the effect of discounting is immaterial. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment is reversed by adjusting an allowance account. The amount of the reversal is recognised in Statement of Financial Performance.

1.17.3.2 *Financial Assets Measured At Cost*

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses is not be reversed.

1.17.4 Derecognition Of Financial Instruments

1.17.4.1 *Financial Assets*

The Municipality derecognises financial assets only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. Financial assets (receivables) are also derecognised when Council approves the write-off of financial assets due to non-recoverability.

If the Municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the Municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

1.17.4.2 *Financial Liabilities*

The Municipality derecognises financial liabilities when the Municipality's obligations are discharged, cancelled or they expire.

The Municipality recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

1.17.5 Offsetting Of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

1.18 STATUTORY RECEIVABLES

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

1.18.1 *Initial Recognition*

Statutory receivables are recognised when the related revenue (exchange or non-exchange revenue) is recognised or when the receivable meets the definition of an asset. The Municipality initially measure statutory receivables at their transaction amount.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.18.2 Subsequent Measurement

The Municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is subsequently changed to reflect any interest or other charges that may have accrued on the receivable, less any impairment losses and amounts derecognised.

1.18.3 Impairment And Uncollectability Of Statutory Receivables

The Municipality assesses at each reporting date whether there is any indication that a statutory receivable may be impaired.

If there is an indication that a statutory receivable may be impaired, the Municipality measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance. In estimating the future cash flows, the Municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Municipality discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Statement of Financial Performance.

1.18.4 Derecognition

The Municipality derecognises a statutory receivable when the rights to the cash flows from the receivable are settled, expire or are waived or the Municipality transfers the receivable and substantially all the risks and rewards of ownership of the receivable to another entity.

When the Municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of receivable to another entity, the Municipality derecognises the receivable and recognises separately any rights and obligations created or retained in the transfer.

1.19 CASH AND CASH EQUIVALENTS

Cash includes cash on hand, cash held with banks, and call deposits. Cash equivalents are short-term highly liquid investments with registered banking institutions with maturities of three months or less from inception, readily convertible to cash without significant change in value.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred in the Statement of Financial Performance.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any bank overdrafts.

1.20 RECEIVABLES

Receivables are recognised initially at fair value, which approximates amortised cost less provision for impairment. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of receivables is established when there is objective evidence that the Municipality will not be able to collect all amounts due according to the original terms of receivables. An estimate is made for impairment of receivables, based on past default experience of all outstanding amounts at reporting date.

Bad debts are written off in the year during which they are identified as irrecoverable, subject to the approval by the appropriate delegated authority. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the Statement of Financial Performance.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.21 TAXES (VALUE ADDED TAX)

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is included in the Statement of Financial Position. The Municipality accounts for value-added tax (VAT) on the payment basis.

1.22 PAYABLES AND ANNUITY LOANS

Payables and annuity loans are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

1.23 CONSUMER DEPOSITS

Consumer deposits are disclosed as a current liability. Consumer deposits are levied in line with council's policy to consumers when services are initially connected. When services are disconnected or terminated, the outstanding deposit is utilised against any arrear accounts the consumer might be liable for on that date. Any excess deposit after all debt is settled is refunded to the specific consumer.

1.24 CONDITIONAL GOVERNMENT GRANTS AND PUBLIC CONTRIBUTIONS

Grants, transfers and donations received or receivable are recognised as assets when the resources that have been transferred to the Municipality meet the definition and criteria for recognition as assets.

Conditional grants, transfers and donations are recognised as revenue to the extent that the Municipality has complied with the conditions embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the conditions have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

The liability recognised to the extent that the conditions associated with the grant, transfer or donation have not been met, always has to be cash-backed. The cash which backs up the liability is invested as a individual investment or part of the general investments of the Municipality until it is utilised.

Interest earned on investments of grants, transfers and donations are treated in accordance with conditions as stipulated in the agreement. If it is payable to the grantor it is recorded as part of the creditor and if it is the Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

1.25 REVENUE

At the time of initial recognition, the full amount of revenue is recognised where the Municipality has an enforceable legal obligation to collect, unless the Municipality has no intention of collecting this revenue. Where the Municipality has no intention of collecting the revenue, rebates and discounts are offset against the related revenue. If the Municipality does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

1.25.1 Revenue From Non-Exchange Transactions

Revenue from non-exchange transactions refers to transactions where the Municipality received revenue from another entity without directly giving approximately equal value in exchange.

Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.25.1.1 *Taxation Revenue*

Taxation revenue comprises of property rates. Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis with reference to the principal amount receivable and effective interest rate applicable. A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers and are deducted from revenue.

1.25.1.2 *Transfer Revenue*

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred, meet the criteria for recognition as an asset. A corresponding liability is recognised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met.

Grants, transfers and donations without any conditions attached are recognised as revenue when the asset is recognised.

1.25.1.3 *Fines*

Fine Revenue constitutes both spot fines and summonses. All fines issued during the year less any cancellations or reductions are recognised as revenue. Any fine reductions or cancellations subsequent to the reported date is recorded as a write-off against the provision raised for debt impairment.

1.25.1.4 *Insurance Refund*

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

1.25.1.5 *Unclaimed Deposits*

All unclaimed deposits are initially recognised as a liability until 36 months expires, when all unclaimed deposits into the Municipality's bank account will be treated as revenue. This policy is in line with prescribed debt principle as enforced by law.

1.25.1.6 *Revenue From Recovery Of Unauthorised, Irregular, Fruitless And Wasteful Expenditure*

Income from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the MFMA (Act 56 of 2003), and is recognised upon the recovery thereof from the responsible party.

1.25.1.7 *Services In-Kind*

Services in-kind include services provided by individuals to the Municipality at no charge or where the Municipality has the right to use assets at no charge.

The Municipality recognises services in-kind that are significant to its operations as assets and recognises the related revenue when it is probable that the future economic benefits or service potential will flow to the Municipality and the fair value of the assets can be measured reliably.

When the criteria for recognition is satisfied, services in-kind are recognised at their fair value as at the date of acquisition.

If the services in-kind are not significant to the Municipality's operations or does not satisfy the criteria for recognition, the Municipality only disclose the nature and type of services in-kind received during the reporting period.

1.25.1.8 *Contributed Assets*

Contributed assets are recognised at fair value when such items of property, plant and equipment qualifies for recognition and become available for use by the Municipality.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.25.2 Revenue From Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Municipality directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

1.25.2.1 Service Charges

Service Charges are levied in terms of approved tariffs.

Service charges relating to electricity are based on consumption and a basic charge as per the approved tariffs. Meters are read on a monthly basis and are recognised as revenue when invoiced. Where the Municipality was unable to take the actual month's reading of certain consumers, a provisional estimate of consumption for that month will be created, based on consumption history. The provisional estimates of consumption are recognised as revenue when invoiced, except at reporting date when estimates of consumption up to the reporting date are recorded as revenue without being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

1.25.2.2 Interest Earned

Interest earned on investments is recognised in the Statement of Financial Performance on the time proportionate basis that takes into account the effective yield on the investment.

1.25.2.3 Rental Income

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

1.25.2.4 Income From Agency Services

Revenue arising out of situations where the Municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the Municipality as compensation for executing the agreed services.

Income from agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

1.25.2.5 Other Tariffs

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

1.25.2.6 Sale Of Goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- (a) The Municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods.
- (b) The Municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- (c) The amount of revenue can be measured reliably.
- (d) It is probable that the economic benefits or service potential associated with the transaction will flow to the Municipality.
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

1.25.2.7 Deferred Payment

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.26 BORROWING COSTS

Borrowing costs that are incurred by the Municipality are expensed in the Statement of Financial Performance in the period during which they are incurred, regardless of how the borrowings are applied.

1.27 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.28 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the Municipality's Supply Chain Management Policy. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.29 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.30 CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

1.31 CAPITAL COMMITMENTS

Capital commitments disclosed in the financial statements represents the contractual balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

1.32 EVENTS AFTER REPORTING DATE

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- (a) those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- (b) those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

If non-adjusting events after the reporting date are material, the Municipality discloses the nature and an estimate of the financial effect.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.33 RELATED PARTIES

The Municipality regards a related party as a person or an entity with the ability to control the Municipality either individually or jointly, or the ability to exercise significant influence over the Municipality, or vice versa.

Management is regarded as a related party and comprises the Councillors, Executive Mayor, Deputy Mayor, Speaker, Mayoral Committee members, Municipal Manager, executive directors and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

A close family member of management is also considered to be related party. A person is considered to be a close member of the family of another person if they are married or live together in a relationship similar to a marriage or are separated by no more than two degrees of natural or legal consanguinity or affinity.

Remuneration of management includes remuneration derived for services provided to the Municipality in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Municipality for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Municipality.

The Municipality operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms, are disclosed.

1.34 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In the process of applying the Municipality's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

1.34.01 Application Of Directive 7

For deemed cost applied to Property, Plant and Equipment as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

For deemed cost applied to land and buildings as per adoption of Directive 7, management made use of an independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

For deemed cost applied to Investment Property as per adoption of Directive 7, management made use of an independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

GRAP implementation date for the Municipality is 1 July 2009 which is also the date applicable when applying Directive 7. The GRAP compliant period is therefore determined to be from 1 July 2009 to the current year's reported date. Where the economic useful life of an item of Property, Plant and Equipment is less than the GRAP compliant period, it is assumed that the item was either incorrectly written off in the past, or that the capital expenditure of the said item was incorrectly included in surplus. In such cases the item shall not be recognised on GRAP implementation date, but shall be taken into account on that date of the opening balances of the comparative amounts.

1.34.02 Impairment Of Receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.34.03 Useful Lives And Residual Values

The useful lives of assets are based on management's estimates. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

The estimated residual values of assets are also based on management's judgement on whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

1.34.04 Impairment Of Non-Monetary Assets

Non-monetary assets can include, but is not limited to, Property, Plant and Equipment, Investment Property and Intangible assets.

The Municipality is not a profit-oriented entity, as its primary objective is service delivery. Tariffs and charges are cost-reflective to ensure continued financial sustainability. No profit element is included in the determination of a tariff. As such, management has determined that the Municipality does not control assets that meet the definition of cash-generating assets and that the Standard of GRAP on Impairment of Non-cash-generating Assets will apply to all assets of the Municipality.

The calculation in respect of the impairment of non-monetary assets is based on an assessment of the extent to which the recoverable amount of the asset has declined below the carrying amount. This calculation will only be performed if there is an indication of an impairment.

1.34.05 Post-Retirement And Long-Term Benefits

The cost of post retirement medical benefits and long-service awards are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

1.34.06 Provisions And Contingent Liabilities

Management's judgement is required when recognising and measuring provisions, as well as when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value at the reporting date of the expected future cash flows to rehabilitate the landfill site. The discount rate used to calculate the effect of time value of money is linked to the index for earthwork as published by Statistics South Africa.

1.34.07 Financial Assets And Liabilities

The classification of financial assets and liabilities, into categories, is based on judgement by management. In making the judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in the Standard of GRAP on Financial Instruments.

1.34.08 Revenue Recognition

Accounting Policy on Revenue from Non-Exchange Transactions and Accounting Policy on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as prescribed in the Standard of GRAP on Revenue from Exchange Transactions and Standard of GRAP on Revenue from Non-Exchange Transactions. Specifically, when goods are sold, whether the significant risks and rewards of ownership of the goods have been transferred to the buyer and when services are rendered, whether the service has been performed.

1.34.10 Provision For Staff Leave

Staff leave is accrued to employees according to collective agreements. Provision is made for the full cost of accrued leave at reporting date. This provision will be realised as employees take leave or when employment is terminated.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

1.34.11 Provision For Performance Bonuses

The provision for performance bonuses represents the best estimate of the obligation at year end and is based on historic patterns of payment of performance bonuses. Performance bonuses are subject to an evaluation by Council.

1.34.12 Componentisation Of Infrastructure Assets

All infrastructure assets are unbundled into their significant components in order to depreciate all major components over the expected useful lives. The cost of each component is estimated based on the current market price of each component, depreciated for age and condition and recalculated to cost at the acquisition date if known or to the date of initially adopting the standards of GRAP.

Total	10 688 384	24 536 826
Consumer debtors are receivable within 30 days. This credit period granted is considered to be consistent with the terms used in the public sector, through established practices and legislation. Discounting of rates debtors are not performed in terms of GRAP 104 on initial recognition.		
Due to the prospective application of the revised IGRAP 1, the Municipality raised a receivable as well as an impairment charge on unpaid fines in the current year.		
Concentrations of credit risk with respect to receivables are limited due to the Municipality's large number of customers. The Municipality's historical experience in collection of receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the Municipality's receivables.

No intangible asset were assessed having an indefinite useful life.

There are no internally generated intangible assets at reporting date.

There are no intangible assets whose title is restricted.

There are no intangible assets pledged as security for liabilities

There are no contractual commitments for the acquisition of intangible assets.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
10 CAPITALISED RESTORATION COST (PPE)		
Capitalised Restoration Cost - Carrying Value	6 332 251	8 624 349
The movement in capitalised restoration cost is reconciled as follows:		
Opening Carrying Value	8 624 349	5 246 294
Cost	12 162 893	8 095 049
Accumulated Depreciation	(3 538 544)	(2 822 692)
Accumulated Impairments	-	(26 063)
Additions	191 749	4 067 844
Disposals	(133 922)	-
Depreciation for the year	(2 349 925)	(715 852)
Reversal of impairments	-	26 063
Closing Carrying Value	6 332 251	8 624 349
Cost	12 220 720	12 162 893
Accumulated Depreciation	(5 888 469)	(3 538 544)
Accumulated Impairments	-	-
The Municipality is required by relevant Environmental Legislation to rehabilitate landfill sites at the closure date of each respective site. The "Capitalised Restoration Cost" asset, which is capitalised in line with the requirements of GRAP 17 and iGRAP 2, relates to the initial estimate of costs involved to restore landfill sites under control of the Elundini Municipality.		
Although this item is accounted for under the Property Plant and Equipment Standard (GRAP 17), the characteristics and nature of this item does not resemble that of normal PPE (such as the tangible nature of assets normally associated with PPE). Based on the aforementioned and in line with the requirements of GRAP 1, Capitalised Restoration Cost is disclosed as a separate item on the face of the Statement of Financial Position.		
11 DEFERRED REVENUE		
Rental of SASSA Building	-	185 377
Less: Current Portion transferred to Current Liabilities	-	(185 377)
Total	-	-
The South African Social Security Agency (SASSA) is leasing a building from Elundini Local Municipality. As per the rental agreement, SASSA incurred expenditure on their own account to upgrade the building in exchange to pay R16 089 per month less rentals than the market rental asking price. The deferred revenue will un-wind over the period of the lease agreement, which is 7 years.		
12 CONSUMER DEPOSITS		
Electricity	303 497	303 497
Housing Rental	82 301	81 588
Total	385 799	385 086
The fair value of consumer deposits approximates their carrying value. Interest is not paid on these amounts.

13.4 Post Retirement Medical Benefits

The movement in Post Retirement Medical Benefits are Reconciled as Follows:

Opening Balance	1 376 771	1 492 858
Payments Made	(129 313)	(117 015)
Finance Charges	121 190	126 910
Actuarial Loss / (Gain)	191 987	(125 982)
Total balance at year-end	1 560 635	1 376 771
Less Current Portion	123 982	115 785
Total	1 436 653	1 260 986

The Post Retirement Medical Benefit Plan is a defined benefit plan, of which the members are made up as follows:

Continuation Members	4	4
Total	4	4

The Municipality makes monthly contributions for health care arrangements to the following medical aid schemes:

Bonitas
LA Health

Key Actuarial Assumptions used are as follows:

i) Interest Rates

Discount rate	8.86%	9.18%
Health Care Cost Inflation Rate	6.43%	7.10%
Net Effective Discount Rate	2.28%	1.94%

The discount rate used is a composite of all government bonds and is calculated using a technique known as "bootstrapping"

ii) Mortality Post-employment

PA(90) - 1 with a 1% mortality improvement per annum from 2010

iii) Last valuation

The last valuation was performed on 31 July 2019.

iv) Actuarial Valuation Method

The Projected Unit Credit Method has been used to value the liabilities.

The liability in respect of past service recognised in the Statement of Financial Position is as follows:	Contribution members	Present value of fund obligations	
		R	R
30 June 2019	1 560 635	1 560 635	
30 June 2018	1 376 771	1 376 771	
30 June 2017	1 492 858	1 492 858	
30 June 2016	1 513 357	1 513 357	
30 June 2015	1 798 214	1 798 214	

The Municipality has elected to recognise the full increase in this defined benefit liability immediately as per GRAP 25.

Experience adjustments were calculated as follows:

	Liabilities (Gain)/Loss	Assets	
		R	R
30 June 2019	46 000		-
30 June 2018	(37 000)		-
30 June 2017	72 000		-
30 June 2016	(280 000)		-
30 June 2015	(125 000)		-

Retirement Funds			
The Consolidated Retirement Fund (former Cape Retirement Fund) is a multi-employer plans. This means that there are multiple local authorities that participate in this fund. In terms of GRAP 25, these multi-employer plans are defined as defined benefit plans. GRAP 25 also state that when sufficient information is not available to use defined benefit accounting for a multi-employer plan, an entity will account for the plan as if it were a defined contribution plan.			
The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the funds' assets from the fund administrator. The fund administrator confirmed that assets of the funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.			
As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrators. The fund administrators claim that the pensioner data to be confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.			
Therefore, although the Consolidated Retirement Fund is defined as a defined benefit plan, it will be accounted for as defined contribution plan.			
Defined Contribution Funds			
Council contributes to the following defined benefit plans:			
Consolidated Retirement Fund (Former Cape Retirement Fund)		4 739 426	3 877 068
The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2016 revealed that the fund is in a sound financial position with a funding level of 100.6% (30 June 2015 - 100.4%).			

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
Defined Contribution Funds		
Council contributes funds which are defined contribution funds. The retirement benefit fund is subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.		
Contributions paid recognised in the Statement of Financial Performance:		
SALA Pension	1 134 474	1 002 280
SAMWU National	3 994 787	3 417 971
National Municipal Workers Fund	515 578	368 009
Discovery Investment	27 300	15 166
Total	5 672 139	4 803 426

14 PAYABLES FROM EXCHANGE TRANSACTIONS

Trade payables	36 183 417	29 360 364
Sundry creditors	691 411	338 437
Payments Received in Advanced	1 941 151	697 164
Retention	12 759 968	9 742 653
Bursary Scheme	31 747	31 747
Deposits Received	210 562	165 070
Total	51 818 255	40 335 434

Payables are being recognised net of any discounts. Payables are being paid within 30 days as prescribed by the MFMA. This credit period granted is considered to be consistent with the terms used in the public sector, through established practices and legislation. Discounting of payables on initial recognition is not deemed necessary. Included in sundry deposits are hall rentals.

Deposits amounting to R581 480 (2018 - R581 480) serve as security for Payables. The remainder of the Payables are unsecured.

The Municipality did not default on any of their payments.

15 UNSPENT CONDITIONAL GRANTS AND RECEIPTS

Unspent Conditional Grants and Receipts Comprises of:

Municipal Infrastructure Grant	-	3 620 013
Integrated National Electrification Programme (INEP)	-	181 745
Expanded Public Works Program (EPWP)	-	318 305
Libraries Grant	711 423	705 034
DEDEA Grant	500 000	-
Voter Station Grant	1 360	1 360
Total	1 212 783	4 826 457

Unspent grants can mainly be attributed to projects that are work in progress on the relevant financial year-ends.

The Unspent Grants are cash-backed by term deposits. The Municipality complied with the conditions attached to all grants received to the extent of revenue recognised. No grants were withheld.

	The Municipality is required by relevant Environmental Legislation to rehabilitate landfill sites at the closure date of each respective site. The calculation for the rehabilitation of the landfill site provision was compiled by an external specialist who was used to perform a valuation of the estimated annual cost of closure and rehabilitation (recurring costs) for the following landfill sites:		
	Mount Fletcher	8 100 578	7 718 403
	Maclear	3 685 756	3 511 086
	Ugie	5 928 048	5 403 886
	Total	17 714 382	16 633 375
	Total cost and estimated date of decommission of the sites are as follows:		
		Estimated Decommission Date	Future Cost of Rehabilitation
	Location		Future Cost of Rehabilitation
	Mount Fletcher	2021	9 144 794
	Maclear	2023	4 697 236
	Ugie	2025	8 528 749
	Total		22 370 779
			22 055 142

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
-----------------	------	------

A retrospective calculation of time value of money, based on an average weighted investment rate of prime less 4%, was used. This rate used is also within the inflation target range of the South African Reserve Bank of between 3% to 6%.

No landfill sites are scheduled for closure in the year that would require closure by capping. All sites are to remain operational. Allowance has been made for survey, environmental and community issues in providing cover to the existing waste to a suitable standard.

In calculating the provision for rehabilitation, the following four items have been included:

- Direct Contract Cost
- Indirect Professional Fees
- Indirect Disbursements
- Escalation

There are currently three landfill sites in Elundini which service Mount Fletcher, Maclear and Ugie, hence they are named after the town which they service.

Mt Fletcher Landfill Site:

Size of operational landfill area?	10 000 m ² (Trench)
Is the site licensed?	Yes
What is the classification of the site	G:C:B-
Is the site operational?	Yes
If the site is operational, is there an expected closure date?	2021
If the site is operational, what is the annual tonnage of waste deposited on site?	5 000 tons
If the site is not operational what was the date the site was last operated?	N/A
Is there any hazardous waste on site?	Previous occurrences of medical waste took place, EHP from District Municipality assist us by monitoring the site.
Are there any existing boreholes for monitoring?	No
Is there a monitoring program in place?	N/A
Are there any geographical features that should be taken into consideration?	No
Status of cover material?	N/A. Trench System, cover material available from trenching process.

Maclear Landfill Site:

Size of operational landfill area?	Nil m ² (Platform)
Is the site licensed?	Yes
What is the classification of the site	G:S:B
Is the site operational?	Site is now a transfer station
If the site is operational, is there an expected closure date?	2023
If the site is operational, what is the annual tonnage of waste deposited on site?	1 000 tons
If the site is not operational what was the date the site was last operated?	N/A
Is there any hazardous waste on site?	Previous occurrences of medical waste took place, EHP from District Municipality assist us by monitoring the site.
Are there any existing boreholes for monitoring?	Yes
Is there a monitoring program in place?	No, DWAF take samples periodically. We have request the District Municipality to assist with a monitoring program as they currently take samples of potable water in Spring on adjacent farm
Are there any geographical features that should be taken into consideration?	Cover material on site, volume unknown
Status of cover material?	

Ugie Landfill Site:

Size of operational landfill area?	8 000 m ² (Platform)
Is the site licensed?	Yes
What is the classification of the site	G:S:C-
Is the site operational?	Yes
If the site is operational, is there an expected closure date?	2025
If the site is operational, what is the annual tonnage of waste deposited on site?	Estimate 5,000 tons per year from vehicle counts
If the site is not operational what was the date the site was last operated?	N/A
Is there any hazardous waste on site?	There have been small amounts deposited in the past, EHP from District Municipality assist us by.

43 BUDGET COMPARISONS

43.1 COMPARABLE BASIS

Differences were identified between the disclosure requirements in terms of GRAP and the reporting requirements in terms of National Treasury budget formats.

The following items are affected by these classification differences:

Statement of Financial Position

The Statement of Financial Position is presented on a comparable basis.

Statement of financial performance

The statement of financial performance is comparable on a line by line basis except for the following items:

The budget statements does not provide for all the different revenue classifications per statement of financial performance. For this reason, all line items not specifically catered for is incorporated under the line item Other Revenue in the budget statement. Other revenue per budget statement consist out of the following line items - Public Contributions and donations, Other Income, Actuarial Gains and Insurance Receipts.

Depreciation and Amortisation and Impairments are aggregated on the budget statements while it is shown separately on the Statement of Financial Performance

The budget statements does not provide for all the different expenditure classifications per statement of financial performance. For this reason, all line items not specifically catered for is incorporated under the line item Other Expenditure in the budget statement. Other Expenditure per budget statement consist out of the following line items - Other Expenditure, Repairs and Maintenance, Operating Grant Expenditure, Fair Value Adjustments and Actuarial Losses.

Cash Flow Statement

The Cash Flow Statement is presented on a comparable basis.

43.2 MATERIAL VARIANCES

Statement of financial position - Budget Adjustments

With the adjustment budget presented, the Statement of Financial Position was not accurately populated.

Statement of financial position - Budget versus Actual

Due to the Statement of Financial Position not accurately populated, no meaningful budget comparison can be made in this regard. The reason for the budget not being accurately populated is mainly due to the opening balances not included in the budget, but only the movement for the year under review.

Statement of financial performance - Budget Adjustments

All proposed adjustments based on actual figures available during mid-year performance assessment of the municipality.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
-----------------	------	------

Statement of financial performance - Budget versus Actual

Property Rates	Property Rates were less than budget, as rebates were budgeted as expenditure rather than a deduction in revenue.
Service Charges	Service Charges were less than budget, as rebates were budgeted as expenditure rather than a deduction in revenue.
Investment revenue	More cash surpluses were available which were invested in call deposit accounts
Transfers recognised - operational	Libraries and DEDEA grant not spent in full.
Other own revenue	Roll over funds were budgeted as other income.
Depreciation and asset impairment	Depreciation was more than budget due decrease in useful lives as a result of the physical verification performed in current year.
Bulk purchases	Bulk Purchases were less than budget due to the introduction of smart meters.
Contracted Services	Actuals were less than budget due to not all project concluded in the current year.
Transfers and grants	Transfer and grants was budgeted as part of Other Expenditure.
Other expenditure	Actuals were less than budget as a result of cost containment measures implemented.
Transfers recognised - capital	Budget was incorrect, as the budget was based on receipts and not income to be recognised.

Cash Flow Statement - Budget Adjustments

All proposed adjustments based on actual figures available during mid-year performance assessment of the municipality.

Cash Flow Statement - Budget versus Actual

Net Cash Flow from Operating Activities was more than budget due to savings on Contracted Services and Other Expenditure. Reasons are provided under Statement of Financial Performance above.

Net Cash Flow from Investing Activities was less than budget as not all capital projects were implemented/concluded at year-end

44 UNAUTHORISED, IRREGULAR, FRUITLESS AND WASTEFUL EXPENDITURE

44.1 UNAUTHORISED EXPENDITURE

Unauthorised expenditure consist out of the following:

Opening Balance	-	-
Unauthorised expenditure current year - operating	-	-
Unauthorised expenditure current year - capital	-	-
Approved by Council	-	-
Unauthorised expenditure awaiting approval	-	-

Unauthorised expenditure only relates to expenditure in excess of approved budget votes. No disciplinary steps or criminal proceedings were instituted as a result of unauthorised expenditure incurred. Variance analysis was performed and submitted to Council to condone.

Total	52 493 491	75 502 178
48 FINANCIAL RISK MANAGEMENT		
The municipality is potentially exposed to the following risks:		
48.1 Credit Risk		
Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.		
The following financial assets are exposed to credit risk:		
Cash and Cash Equivalents	76 990 418	59 270 802
Receivables from exchange transactions	9 014 576	4 989 397
Receivables from non-exchange transactions	10 688 384	24 536 826
Total	96 693 378	88 797 025
<u>Cash and Cash Equivalents and Non-Current Investments</u>		
Deposits of the municipality is only held at reputable banks that are listed on the JSE. The credit quality is regularly monitored through required SENS releases by the various banks. The risk pertaining to these deposits are considered to be very low.		
There are no restrictions on the cash deposits held and no cash were pledged as security. No collateral is held for any cash and cash equivalents.		

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
-----------------	------	------

Receivables

Receivables comprise of a large number of users, dispersed across different sectors and geographical areas. On-going credit evaluations are performed on the financial condition of these receivables. Credit risk pertaining to receivables are considered to be moderate due the diversified nature of receivables and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Receivables are disclosed after taking into account the provision for impairment raised against each class of receivable.

Receivables are payable within 30 days. All receivables outstanding for more than 30 days are considered to be passed due.

Refer to notes 3 and 4 for more information regarding the provision for impairment raised against each service type as well as receivables considered to be passed due.

No receivables were pledged as security for liabilities and no collateral is held from any consumers (other than consumer deposits).

The following service receivables are passed due, but not impaired:

Rates	7 294 520	14 951 215
Electricity	2 900 393	588 368
Refuse	1 417 647	1 094 533
Other	2 260 032	1 186 550
Total	13 872 592	17 820 665

Rates is not considered to be a financial asset, but is included in analysis for user purposes.

Long Term Receivables (including current portion)

Long Term Receivables are disclosed after taking into account any provision for impairment raised against the outstanding balance. Each outstanding balance are individually assessed for impairment.

No receivables were pledged as security for liabilities and no collateral is held from any of the counter parties.

48.2 Currency risk (Market Risk)

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The financial instruments of the municipality is not directly exposed to any currency risk.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
-----------------	------	------

48.3 Interest rate risk (Market Risk)

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The following balances are exposed to interest rate fluctuations:

Cash and Cash Equivalents (Excluding Cash on Hand)	76 990 418	59 270 802
Long-term Liabilities (Including Current Portion)	-	-
Net balance exposed	76 990 418	59 270 802

Although the non-current provision is not defined as a financial instrument, the potential effect of changes in interest rates used to discount this balance over time, is included for the benefit of the user of the financial statements.

Potential effect of changes in interest rates on surplus and deficit for the year/period:

0.5% increase in interest rates	384 952	296 354
1% decrease in interest rates	(769 904)	(592 708)

South Africa have reached the turning point in the rates cycle and any further upward adjustments are remote.

48.4 Liquidity risk

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is mitigated by approving cash funded budgets at all times to ensure commitments can be settled once due over the long term. The municipality also monitors its cash balances on a daily basis to ensure cash resources are available to settle short term obligations.

The following balances are exposed to liquidity risk:

	PAYABLE			Total
	Within 1 Year	Two to five years	After five years	
30 JUNE 2019				
Finance Leases	89 893	104 876	-	194 769
Payables from exchange transactions	49 877 105	-	-	49 877 105
Unspent conditional grants and receipts	1 212 783	-	-	1 212 783
Total	51 179 781	104 876	-	51 284 657
30 JUNE 2018				
Finance leases	176 965	-	-	176 965
Payables from exchange transactions	39 638 270	-	-	39 638 270
Unspent conditional grants and receipts	4 826 457	-	-	4 826 457
Total	44 641 692	-	-	44 641 692

48.5 Other price risk (Market Risk)

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The municipality is not exposed to any other price risk.

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

<i>Figures in Rand</i>	2019	2018
49 FINANCIAL INSTRUMENTS		
The municipality recognised the following financial instruments (All balances are recognised at amortised cost.)		
<u>Financial Assets</u>		
Cash and Cash Equivalents	77 124 912	59 270 802
Receivables from exchange transactions	9 014 576	4 989 397
Total	86 139 489	64 260 199
<u>Financial Liabilities</u>		
Current Portion of Long-term Liabilities	64 506	162 782
Payables from exchange transactions	49 877 105	39 638 270
Unspent Conditional Grants and Receipts	1 212 783	4 826 457
Long-term Liabilities	93 031	-
Total	51 247 424	44 627 509
50 STATUTORY RECEIVABLES		
In accordance with the principles of GRAP 108, Statutory Receivables of the municipality are classified as follows:		
Rates	7 453 107	14 951 215
Fines	-	-
Taxes	10 874 092	10 517 388
Total	18 327 200	25 468 603
Refer to notes 4 and 5 for more detail relating to the rates receivables and taxes.		
The amounts above are disclosed after any provision for impairment has been taken into account.		
51 EVENTS AFTER REPORTING DATE		
The Municipal had no significant events after reporting date.		
52 IN-KIND DONATIONS AND ASSISTANCE		
No in-kind donations and assistance were received by the Municipality during the 2018/2019 financial year.		

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
53 PRIVATE PUBLIC PARTNERSHIPS (PPP's)		
Council entered into a Private Public Partnership (PPP) with Interwaste (Pty) Ltd ("The Private Company") on 30 May 2013.		
In terms of the PPP the Private Company will be responsible for the maintenance and operation of the landfill sites in Ugie and Maclear, as well as Mt Fletcher from 2015/16. The Municipality is still responsible for the collection of refuse at the consumers' premises.		
The duration of the contract is 10 years and future estimated payments (including VAT) are set out below:		
Year		Amount Payable
2018/19		5 708 715
2019/20		6 051 221
2020/21		6 414 297
2021/22		6 679 164
2022/23		7 207 122
In terms of the PPP, the Private Company is required to provide their own movable assets in order to fulfil their function. The PPP does make provision for the transfer of the movable assets to the Municipality at the end of the contract. The Private Company is not required to build any new assets, but only to maintain the current assets belonging to the Municipality.		
The performance of the Private Company is reviewed on an annual basis. The contract may be terminated based on non-performance. There is also no renewal clause after the 10 years.		
54 CONTINGENT LIABILITIES		
Council do have the following contingent liabilities at the end of the financial year 2018/2019:		
54.1 A labour dispute was declared relating to unpaid employee benefits amounting to R465,892. The matter emanates from their claim for unpaid overtime and standby allowance dating back to 2002. A notice of motion dated 24 April 2018 was served on the municipality on 21 May 2018, with different claim amounts by the former employees - EL Bezuidenhout R477,311, B Perkins R544,737 and A V Lefember R454,546. The applicants have since withdrawn the matter from the Labour Court and the municipality has claimed and been paid for wasted costs amounting to R95,000.	-	1 476 595
54.2 A company was contracted to do road repairs in Maclear, but failed to do work to satisfaction of the Municipality. The Municipality rightfully retained a certain percentage of the retention fee amounting to an estimate of R950,000. The plaintiff is suing the Municipality for the retention fees. The Municipality has defended the action. The Municipality is now awaiting for its attorneys to give a response to the claim (Plea).	950 000	950 000
54.3 The Municipality has been sued by a plaintiff for damages to his vehicle amounting to R85,307. The plaintiff alludes that the damages obtained was due to the Municipality neglecting to maintain its roads. The Municipality is now awaiting for its attorneys to respond to the claim (Plea).	85 307	85 307

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

ELUNDINI LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2019

Figures in Rand	2019	2018
54.4 A former director in the employment of the Municipality has approached the Labour Court, claiming that the appointment of an employee to the position previously occupied by the applicant, and to which he had applied, be deemed irregular and invalid on account of the employee being suitable for the position and, by implication, he be deemed the suitable candidate. The Municipality is defending the action. As the applicant has been employed in another municipality in a role similar to the one that he played at the municipality since the 2017/2018 financial year, it is considered adequate that the contingent liability be calculated.	582 487	582 487
54.5 A contractor failed to fulfil its contractual obligations and therefore the Municipality, after following due process, terminated the contract in March 2014. A Summons was received on 23 September 2014 claiming for loss of profit of the said termination amounting to R1,250,000. The matter is still pending before the Mthatha High Court as it has been postponed on various occasions.	1 250 000	1 250 000
54.6 A contractor was appointed to construct an access road and was paid off as per the terms of the contract. Subsequent to the work performed, the contractor submitted a claim alleging to have performed additional work for which the municipality has not paid. The Municipality has refused to pay the amounts claimed as the work allegedly performed cannot be verified and was also not authorised. The contractor has approached a court of law to demand payment and the municipality is defending the action.	961 156	961 156
54.7 The Municipality has been sued by a plaintiff for damages to his vehicle amounting to R305,307.90. The plaintiff alludes that the damages obtained was due to the Municipality's negligent of its vehicle with registration letters and number HPY 707 EC. The Municipality and through its insurers, is defending the claim.	305 308	-
54.8 A notice of motion and founding affidavit has been lodged with the Labour Court in Port Elizabeth on 29 October 2018 by a former employee of the municipality, seeking to be reinstated to his position with effect from the date of dismissal. The municipality is defending the matter and the matter is awaiting a set down.	967 974	-
Total estimated Contingent Liabilities	5 102 232	5 305 545

55 RELATED PARTIES

All rates, service charges and other charges in respect of related parties are in accordance with approved tariffs that were advertised to the public. No impairment charge have been recognised in respect of amounts owed by related parties.

Other related parties transactions relates to the acquisition of goods under terms and conditions applicable to open market trading on a willing buyer and seller principles. The payment terms are not favourable to other transactions (other related parties) and are not secured or encumbered. Settlement terms are in accordance with the general terms of trade with no guarantees received or given. The provision for doubtful debts is not made as the municipality is not owed by the supplier and no bad debts expense was recognised on these related parties.

55.1 Related Party Loans

There are no loans outstanding to any related party. Since 1 July 2004 loans to councillors and senior management employees are not permitted.

55.2 Compensation of Management Personnel

Remuneration of related parties are disclosed in notes 28 and 29

COMPONENT B: FINANCIAL OVERVIEW

5.2. Expenditure Management

Details	30 June 2019	30 June 2018
Creditors payment period	1 day	44 days

5.3. Revenue Management

Details	30 June 2019	30 June 2018
Debtor collection period (after impairment)	159 days	102 days
Debtor impairment provision as a percentage of accounts receivable	56%	6%
Percentage of electricity losses incurred	13%	23, 66%

5.4. Asset and Liability Management

Details	30 June 2019	30 June 2018
Current ratio	1.7:1	2.1:1
Total assets to total liabilities	7.68:1	8.3:1

5.5. Cash Management

Details	30 June 2019	30 June 2018
Cash and cash equivalent as a percentage of operating expenditure	3.8%	28%
Creditors as a percentage of cash and cash equivalents	78%	72%

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

COMPONENT C: OPERATING RATIOS

Details	Expected norm	Actual	Variance
Employee costs	40%	38%	2%
Repairs and maintenance	8%	3%	5%
Finance charges and depreciation	8%	11%	-3%

- ✓ Employee cost is 34% and is within the expected norm;
- ✓ Repairs and maintenance is 8% of the Property plant & equipment currently we are below the norm as we budgeted 6% of the total operating budget;
- ✓ Finance charges and depreciation are 3% more than the norm. This can be attributed to the higher depreciation generated as a result of the compensation of infrastructure assets in terms of GRAP.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

CHAPTER 6: AUDITOR GENERAL AUDIT FINDINGS

COMPONENT A: AUDITOR – GENERAL OPINION OF FINANCIAL STATEMENTS YEAR -1 (PRIOR YEAR)

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Report of the auditor-general to the Eastern Cape provincial Legislature and council on Elundini Local Municipality

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Elundini Local Municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2018, the statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget and actual amount for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, because of the significance of the matters described in the basis for adverse opinion section of this auditor's report, financial statements do not present fairly, in all material respects, the financial position of the Elundini Local Municipality as at 30 June 2018, and financial performance and its cash flows for the year then ended in accordance South African Standard of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act of South Africa (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa (Act No.3 of 2017) (DoRA).

Basis for adverse opinion

Property, plant and equipment

3. The municipality did not recognise all items of property, plant and equipment in accordance with GRAP 17, *property, plant and equipment* as disclosed in note 7. Assets in progress were incorrectly transferred to completed assets. As a result infrastructure assets are overstated by R 26,7 million and work in progress understated by R26,7million, depreciation understated by R 4,88 million and property, plant and equipment overstated by R4,88 million as disclosed in note 7 to the financial statements.
4. In addition, the municipality did not consider impairment to property, plant and equipment and incorrect useful lives were used for calculation of depreciation in accordance with GRAP 17, *property, plant and equipment* as disclosed in note 7. Consequently, I was unable to determine the full extent of the overstatement of property, plant and equipment stated at R405,2 million in note 7 to the financial statement, as it was impractical to do so.

Payables from exchange transactions

5. The municipality did not have adequate systems to maintain records of accounts payable for goods and services received but not yet paid for, as the listing included invoices already paid by the municipality. This resulted in accruals being overstated by R6,5 million. In addition, I was unable to obtain sufficient appropriate audit evidence for the amounts disclosed as payables from exchange transactions. I could not confirm payables from exchange transactions by alternative means. Consequently, I was unable to determine whether any further adjustments were necessary to payables from exchange transactions stated at R29,5 million in the financial statements.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Receivables from non-exchange transactions

6. I was unable to obtain sufficient appropriate audit evidence for an adjustment made to receivables from non-exchange transactions due to the poor status of the accounting records. I could not confirm the validity of the adjustment to receivables from non-exchange transactions by alternative means. Consequently, I was unable to determine whether any further adjustments were necessary to receivables from non-exchange transactions stated at R23,1 million in the financial statements.

Revenue from exchange transactions

7. The municipality incorrectly recognised impairment recovered as revenue from exchange transactions, as result revenue from exchange transactions is overstated and debt impairment overstated by R7,1 million.

Operating grant expenditure

8. The municipality did not account for conditional grants according to DoRA. Consequently, operating grant expenditure is overstated by R5,8 million and general expenditure overstated by R5,8 million.

Statement of financial performance

9. Statement of financial performance was materially misstated by R4, 8 million due to the cumulative effect of individually immaterial uncorrected misstatements in the following items:

Total revenue

- Interest charged on trade and other receivables as stated in the statement of financial performance at R1,9 million is over stated by R873 743.

Total expenditure

- Repairs and maintenance as stated in the statement of financial performance at R13,5 million was overstated by R1,2 million.
- Employee related costs as stated in the statement of financial performance at R79,7 million was overstated by R2,7 million.

Capital commitments

10. I was unable to obtain sufficient appropriate audit evidence for an adjustment made to capital commitments due to the poor status of the accounting records. I could not confirm the validity of the adjustment to capital commitments by alternative means. Consequently, I was unable to determine whether any further adjustments were necessary to capital commitments stated at R28,54 million in the financial statements.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Cash flow statements

11. The municipality incorrectly classified and incorrectly calculated various line items in the cash flow statement. This resulted in the following line items being misstated as described:
 - Rates, services and other was overstated by R5,99 million.
 - Interest revenue is overstated by R3,36 million.
 - Suppliers and employees costs are overstated by R9 million.

Context for the opinion

12. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of this auditor's report.
13. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *Code of ethics for professional accountants* (IESBA code) and the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
14. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my adverse opinion.

Emphasis of matters

15. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Material Losses - electricity

16. As disclosed in note 40 to the financial statements, electricity losses of R4,7million (2017: R4,5 million) was incurred which represent 23.66% (2017: 23.12%) of the total electricity purchased.

Impairment loss – trade debtors

17. As disclosed in notes 3 and 4 to the financial statements, material impairments of R14 million and R19,8 million respectively were incurred as a result of a provision of impairment of irrecoverable trade and other receivables from exchange and non-exchange transactions.

Irregular expenditure

18. As disclosed in note 39,3 to the financial statements, the municipality incurred irregular expenditure of R54,3 million as it did not follow proper tender processes.

Other matters

19. I draw attention to the matters below. My opinion is not modified in respect of these matters.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Unaudited disclosure notes

20. In terms of section 125(2)(e) of the MFMA the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and accordingly we do not express an opinion thereon.

Unaudited supplementary information

21. The supplementary information set out on pages xx to xx does not form part of the financial statements and is presented as additional information. We have not audited this schedule and accordingly we do not express an opinion thereon.

Responsibilities of the accounting officer for the financial statements

22. The accounting authority is responsible for the preparation and fair presentation of the financial statements in accordance with GRAP and the requirements of the MFMA and DoRA, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
23. In preparing the financial statements, the accounting officer is responsible for assessing the Elundini Local Municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

24. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
25. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

26. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

27. My procedures address the reported performance information, which must be based on the approved performance planning documents of the municipality. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.

28. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected development priorities presented in the annual performance report of the municipality for the year ended 30 June 2018:

Development priorities	Pages in the annual performance report
KPA 2: Basic services and infrastructure	x -x
KPA 3: Local Economic Development	x-x

29. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

30. I did not raise any material findings on the usefulness and reliability of the reported performance information for these development priorities.

Other matters

31. I draw attention to the matters below.

Achievement of planned targets

32. Refer to the annual performance report on pages ... to ... for information on the achievement of planned targets for the year.

Adjustment of material misstatements

33. I identified material misstatements in the annual performance report submitted for auditing. As management subsequently corrected the misstatements, I did not raise any material findings on the usefulness and reliability of the reported performance information.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Report on the audit of compliance with legislation

Introduction and scope

34. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipality with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

35. The material findings on compliance with specific matters in key legislations are as follows:

Annual financial statements, performance and annual reports

36. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements identified by the auditors in the submitted financial statements were not adequately corrected which resulted in the financial statements receiving an adverse audit opinion.

Asset management

37. An effective system of internal control for assets (including an asset register) was not in place, as required by section 63(2)(c) of the MFMA.

Expenditure management

38. Effective steps were not taken to prevent irregular expenditure amounting to R54 342 394 as disclosed in note 39.3 to the annual financial statements, as required by section 62(1)(d) of the MFMA.

Procurement and contract management

39. Competitive bids were adjudicated by a bid adjudication committee that was not composed in accordance with SCM regulation 29(2). Similar non-compliance was also reported in the prior year.

Human resource management

40. The senior managers did not sign performance agreements within the prescribed period, as required by section 57(2)(a) of the MSA.

Other information

41. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report.

42. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

43. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected development priorities presented in the annual performance report.
44. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate, however, if it is corrected this will not be necessary.

Internal control deficiencies

45. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the adverse opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.
46. Leadership did not provide adequate oversight in ensuring that there are policies and procedures in place and monitor implementation of such policies to enhance the control environment, as a result the existing controls could not prevent, detect or correct material misstatements on the financial statements, annual performance report and instances of non-compliance with laws and regulations before submission for audit purposes
47. The municipality did not perform monthly processing and reconciliation of transaction to ensure that accounting records are accurate, complete and supported by adequate supporting documentation, this is evidence by material misstatements identified in the financial statements and annual performance report submitted for audit. In addition compliance with legislation was not monitored adequately throughout the year, resulting in numerous material findings on compliance with legislation.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

49. The risk management strategy of the municipality did not adequately respond to the Mscoa implementation as a result material misstatements were identified in the financial statements. Furthermore the audit committee and internal audit unit did not adequately review the financial statements and annual performance report submitted as results numerous material misstatements were identified and instances of non-compliance with laws and regulations.

Auditor-General

East London

30 November 2018

AUDITOR-GENERAL
SOUTH AFRICA

Auditing to build public confidence

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

COMPONENT B: AUDITOR – GENERAL OPINION OF FINANCIAL STATEMENTS YEAR -0 (CURRENT YEAR)

Report of the auditor-general to the Eastern Cape Provincial Legislature and council on Elundini Local Municipality

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Elundini Local Municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2019, the statement of financial performance, statement of changes in net assets, the cash flow statement and the statement of comparison of budget and actual amount for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Elundini Local Municipality as at 30 June 2019, and its financial performance and cash flows for the year then ended in accordance with the South African standards of Generally Recognised Accounting Practices (GRAP) and the requirements of the Municipal Finance Management Act (Act no. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2018 (Act no.1 of 2018) (Dora).

Basis for opinion:

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of this auditor's report.
4. I am independent of the municipality in accordance with sections 290 and 291 of the International Ethics Standards Board for Accountants' *Code of ethics for professional accountants* and, parts 1 and 3 of the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA codes) as well as the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA codes.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

7. As disclosed in note 40 the financial statements, the corresponding figures for 30 June 2018 have been restated as a result of errors in the financial statements of the municipality at, and identified during the year ended, 30 June 2019.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Irregular expenditure

8. As disclosed in note 44.3 to the financial statements, the municipality incurred irregular expenditure of R50,6 million (2017-18: R54,3 million) as it did not follow a proper procurement processes.

Material impairments – receivables

9. As disclosed in notes 3 to the financial statements, material impairments for receivables from exchange transactions to the amount of R21,2 million (2017-18: R15,4 million) respectively were incurred as a result of non- payment by trade debtors.
10. As disclosed in notes 4 to the financial statements, material impairments for receivables from non-exchange transactions to the amount of R10,3 million (2017-18: R6,5 million) respectively were incurred as a result of non- payment by trade debtors.

Material losses - electricity

11. As disclosed in note 45 to the financial statements, material electricity losses of R5, 0 million (2017-18: R4, 7 million) was incurred, which represents 24% (2017-18: 23%) of total electricity purchased. The electricity losses are due to inadequate controls within the municipality to ensure that loss events are monitored and attended regularly, and that the infrastructure is properly maintained.

Other matters

12. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure notes

13. In terms of section 125(2)(e) of the MFMA the municipality is required to disclose particulars of non-compliance with this legislation. This disclosure requirement did not form part of the audit of the financial statements and accordingly we do not express an opinion thereon.

Unaudited supplementary information

14. The supplementary information set out on pages ... to ... do not form part of the financial statements and is presented as additional information. I have not audited these schedules and accordingly I do not express an opinion thereon.

Responsibilities of the accounting officer for the financial statements

15. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with GRAP and the requirements of the MFMA and DoRA, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
16. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Auditor-general's responsibilities for the audit of the financial statements

17. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
18. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

19. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
20. My procedures address the reported performance information, which must be based on the approved performance planning documents of the municipality. I have not evaluated the completeness and appropriateness of the performance indicators/ measures included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
21. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected development priorities presented in the annual performance report of the municipality for the year ended 30 June 2019:

Development priority	Pages in the annual performance report
KPA 2 - Basic services and infrastructure	x – x

22. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

23. The material findings in respect of the usefulness and reliability of the selected development priorities are as follows:

KPA 2 – Basic service and infrastructure

Various indicators

24. The target and the performance measure for the below indicators is not well defined as the target is not specific in relation to the indicator. The target and the expected performance is in percentages whereas the indicator is defined as kilometres.

Indicator name	Planned target	Reported achievement
KMs of paved roads constructed: Upgrading of Vincent Streets & Stormwater	80%	71%
KMs of unpaved access roads constructed: Liphofung Access Road	60%	70%

Number of households and commercial properties with access to refuse collection service

25. The source information and evidence for achieving the planned indicator was not clearly defined. The planned target for this indicator is not measurable, as the source data for reported achievement has been changed from planned data.

Number of indigent households with access to free basic services

26. The systems and processes that enable reliable reporting of achievement against the indicator were not adequately designed as the municipality did not have a system that enables it to verify whether or not their indigents were valid.

Other matters:

27. I draw attention to the matters below:

Achievement of planned targets

28. Refer to the annual performance report on pages ... to ... for information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraphs 24; 25 and 26 of this report.

Unaudited supplementary schedules

29. The supplementary information set out on pages ... to ... do not form part of the annual performance report and is presented as additional information. I have not audited these schedules and, accordingly, I do not report thereon.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Report on the audit of compliance with legislation

Introduction and scope

30. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipality with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

31. The material findings on compliance with specific matters in key legislations are as follows:

Annual financial statements, performance and annual reports

32. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of current liabilities, expenditure and disclosure item identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently.

Expenditure management

33. Reasonable steps were not taken to prevent irregular expenditure amounting to R50,6 million as disclosed in note 44.3 to the annual financial statements, as required by section 62(1)(d) of the MFMA.

Revenue management

34. Interest was not charged on all accounts in arrears, as required by section 64(2)(g) of the MFMA.

Procurement and contract management

35. The performance of some of the contractors or providers was not monitored on a monthly basis, as required by section 116(2)(b) of the MFMA.

36. Persons in service of the municipality whose close family members had a private or business interest in contracts awarded by the municipality failed to disclose such interest, in contravention of the code of conduct for councillors issued in terms of the Municipal Systems Act.

Other information

37. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report which includes the audit committee's report. The other information does not include the financial statements, the auditor's report and those selected development priorities presented in the annual performance report that have been specifically reported in this auditor's report.

38. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

39. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected development priorities presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

40. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

41. I considered internal control relevant to my audit of financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.

42. Leadership did not provide adequate oversight in ensuring that there are policies and procedures in place and monitor implementation of such policies to enhance the control environment, as a result the existing controls could not prevent, detect or correct material misstatements on the financial statements, annual performance report and instances of non-compliance with laws and regulations before submitting for audit purposes.

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

43. The municipality did not perform monthly processing and reconciliation of transaction to ensure that accounting records are accurate, complete and supported by adequate supporting documentation, this is evidence by material misstatements identified in the financial statements submitted for audit. In addition, compliance with legislation was not monitored adequately throughout the year, resulting in numerous material findings on compliance with legislation.

Auditor - General

East London

24 January 2020

Auditing to build public confidence

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

Annexure – Auditor-general's responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements, and the procedures performed on reported performance information for selected development priorities and on the municipality's compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:
 - identify and assess the risks of material misstatement of the financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
 - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
 - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
 - conclude on the appropriateness of the accounting officer's use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Elundini Local Municipality ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify the opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipality to cease continuing as a going concern
 - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also confirm to the accounting officer that I have complied with relevant ethical requirements regarding independence, and communicate all relationships and other matters that may reasonably be thought to have a bearing on my independence and, where applicable, related safeguards.

APPENDIX B – COMMITTEES AND COMMITTEE PURPOSES

Below is the list of both Section 79 and 80 Committees that ELM had during the year under review:

Committees (other than Mayoral / Executive Committee) and Purposes of Committees		
Type of Committee	Municipal Committees	Purpose of Committee
Section 80	Corporate Services Portfolio Committee	The purpose is to provide the EXCO and Council with reports on all Corporate Services functions
Section 80	Community Services Portfolio committee	The purpose is to provide the EXCO and Council with reports on all Community Services functions
Section 80	Financial Services Portfolio Committee	The purpose is to provide the EXCO and Council with reports on all Financial Services functions
Section 80	Infrastructure Planning and Development Portfolio Committee	The purpose is to provide the EXCO and Council with reports on all Infrastructure Planning and Development functions
Section 80	Strategic Planning and Economic Development Portfolio Committee	The purpose is to provide the EXCO and Council with reports on all Strategic Planning and Economic Development functions
Section 80	Strategic Governance Committee	The purpose is to ensure that ELM is operating in a transparent and accountable way and to also ensure that it is a suitable organisation which is clear of its contribution to its local people.
Section 79	Municipal Public Accounts Committee	The purpose is to exercise oversight over executive functionaries of Council and ensure good governance in ELM.
Section 79	Members' Interests and Ethics Committee	The purpose is to establish and promote ethical conduct standards for municipal officials and members of the Council. To outline certain roles of conduct so that they carry out duties, powers and function impartially and in dignity
Section 79	Rules Committee	The purpose of this committee is to develop, formulate and adopt policy concerning the exclusive business of the Council including its proceedings, procedures, rules and orders, also to monitor and oversee the implementation of policy on all matters mentioned above.
Section 79	Budget Steering Committee	The purpose of this committee is to provide technical assistance to the Mayor in discharging his or her duties as provided for in the Municipal Finance Management Act No 56 of 2003.
Section 79	Audit Committee	The purpose of this committee is to advise municipal council and the accounting officer on issues of sound financial controls, audit, risk

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

		management, performance management and good corporate governance.
Section 79	Women Caucus	The purpose of this committee is to advance interests of women and to ensure that women are also mainstreamed in all governance programmes.
Section 79	Mandate Committee	The purpose of this committee is to provide mandate to representatives serving in the district municipal council on issues of the municipality that need consideration by the district municipal council

APPENDIX D – RECOMMENDATIONS OF THE MUNICIPAL AUDIT COMMITTEE

The ELM's Audit Committee has, during the year under review, from 01 July 2018 to 30 June 2019, held four (4) meetings as per its schedule.

Below were the items discussed and their resolutions:

Date of meeting	Items	Committee recommendations during the year under review	Recommendations adopted (Yes or No, if not adopted provide explanation)
24 August 2018			
	<p>Detailed report on rental of houses: The majority of our investment properties were properties which the municipality inherited.</p> <p>Bhodi Complex: there were a number of houses or units and in some instances the tenant would take the whole house or a room. The average monthly rate for a full house was reported at R3000.00 and for a room above R500.00 per month.</p> <p>Bhodi Complex used to be an orphanage home and is in a very dilapidated state. Some of the tenants were not paying due to the bad condition and non-maintenance of Bhodi Complex. The municipality</p>	<p>Members were happy with the investment property rented by SASSA, however they were concerned with Department of Health not paying and other tenants which were not paying. There were two factors which contributed to under collection:</p> <p>Tenants did not want to pay because the investment properties were not in a good condition.</p> <p>Municipality did not have enough capacity to look after the investment properties as there was one officer called fleet and investment officer who was supposed to look after the fleet and investment property. In the last review of organizational structure, a position of investment officer was established and two position of property caretakers were also established to complaint up the capacity of the section.</p>	The report was noted

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

<p>budgeted R4 million for repairs, fencing, however that budget was not sufficient to re-engineer the Bhodi Complex to an acceptable standard and habitation conducive environment.</p> <p>Lastly, EXCO meeting members requested a report indicating how the property was generating revenue versus how much was spent on maintaining the property. Collection rate was reported at 53%.</p> <p>The collection rate was recorded at 42% for Transido Complex in Mount-fletcher which was also inherited was subsequently converted into revenue generating units.</p> <p>The collection rate for Open Market was recorded at 43%. The municipality tried to chase out the tenants as they stated a lot of stories with regards to rent payment.</p> <p>The collection rate was recorded at 36% for ERF 3503 property which is occupied by Mkatshane Funeral Service at the time of reporting.</p> <p>The collection rate was recorded at 46% for ERF 2033 & 2034 property which was occupied by T. Mkumatela at the time of reporting.</p>		
--	--	--

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

<p>The collection rate was recorded at 98% for ERF 278 property which was occupied by SASSA at the time of reporting. SASSA approached the municipality and they refurbished that building and entered into a ten year lease term.</p> <p>The collection rate was recorded at 95% for ERF 442 property which was occupied by ZNHANG at the time of reporting.</p> <p>The collection rate was recorded at 13% for ERF 535 property which was occupied by Department of Health (a clinic in Ugie) at the time of reporting.</p>		
<p><i>The service provider doing 100% completeness testing on payment vouchers:</i></p>	<p>To note the report.</p> <p>Members wanted to know if the service provider was still going to continue with this service during the financial year, taking into account the concerns raised by AGSA, that they would not place reliance on the work performed by the service provider as they were not internal auditors.</p> <p>Can't this service provider be put under the control of internal audit?</p>	<p>No, it was advised that extending the their scope could assist, however bringing the service provider under the control of internal audit could compromise the internal audit's independence as the</p>

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

			work of the service provider is purely a management function.
	Report on electricity distribution losses as at 30 June 2018	To note the report. To keep on reporting this and find ways in identifying the root cause for these electricity distribution losses.	Yes
	Tabling of reports: ➤ Presentation of the draft annual financial statements for the year ended 30 June 2018 and review notes thereon by the internal auditors	To note the report. CFO to circulate the AFS on Tuesday, 28 August 2018 at 17:00, to all members and internal audit. Members and internal auditors would have Wednesday to review and give feedback to CFO in order to effect the changes and submit to AGSA on Friday. On Monday, 03 September 2018, CFO and internal audit would document all these challenges and members needed a record of these things so that in January after the end of the audit, these challenges could be circulated and turnaround strategy could be developed so that we do not find ourselves in the same situation following year.	No, AFS were not circulated to AC members and internal audit on Tuesday, 28 August 2018. Yes
	Presentation of draft annual performance report	To note the report.	Yes

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

	for the year ended 30 June 2018	Departments to revisit the variance explanation before submitting to AGSA and internal audit should review the reasons for not achieving the targets.	
	Presentation of the risk management report Internal control dashboard	To note the report.	Yes
	Brief report regarding the implementation of measures to ensure that there are no repeat findings from the AG. Accounting Officer talk through the issues on 2016/17 financial audit, where the municipality received an unqualified audit opinion with compliance findings. Those compliance findings had to do with the local content in the procurement of some items, contract monitoring and capacity of the institution to perform that contract monitoring. The issue of the local content has been addressed at the specification level and contract monitoring has been improved by having monthly contract meeting between SCM and IP&D. In the new organizational structure, the municipality has included bids and	To note the report.	Yes

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

<p>contract management person to support the contract management officer.</p> <p>The other concerning issue was around the irregular expenditure which was reported in the previous financial year as a result of SCM Regulation 32, which had not been implemented this year. Irregular expenditure of R47 millions for 2017/2018 financial year was reported which occurred as a result of the composition of the BAC which might be a compliance finding.</p>		
<p>Internal audit reports deferred in previous meeting:</p> <p>Manager Internal Audit, presented the internal audit reports conducted by the previous internal audit service provider.</p> <ul style="list-style-type: none"> ➤ Asset Management Review ➤ Contract Management ➤ Mcoa phase 2, ➤ ICT – Disaster recovery plan 	<p>Members recommended that for 2018/2019 financial year these reconciliations should be done monthly not to wait for end of the year.</p> <p>After the submission of AFS municipality should get Munsoft up and running so that depreciation can be calculated monthly.</p> <p>CFO is the system administrator and ideally that function should be with IT unit. Management must really look at this function as it gives CFO multiple functions.</p>	Yes
<p>Presentation of Internal Audit Reports and Internal Audit documents:</p>		

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

<ul style="list-style-type: none"> ➤ Indigent Management Review ➤ Progress report on implementation of Audit Action Plan (Follow up) ➤ Three year strategic and Operational audit plan for 2018/19 ➤ Presentation of schedule of audit committee meetings for 2018/2019 financial year ➤ Presentation of audit committee charter ➤ Presentation of internal audit charter ➤ Quality Assurance Improvement Plan 	<p>Members advised management that certain controls on these findings do not take much effort to execute and these findings were as a result of negligence from the officials and were not even supposed to be identified by internal auditors. It was resolved not to amend the indigent application form due to the fact that certain application forms are not signed by Councilors. Accounting Officer to write a letter to Speaker stressing how important this control i.e. Ward Councillors signing the indigent application forms</p> <ul style="list-style-type: none"> ✓ To note a report ✓ To approve IA plan ✓ To approve the schedule of AC meetings ✓ To recommend that Council approves the Audit Committee Charter ✓ To approve AC charter ✓ To approve QAIP 	Yes

		allocated grants.	
Date of	Items	Committee recommendations during the year under review	Recommendations
	Presentation of Internal Audit Reports: <ul style="list-style-type: none"> ➤ Progress report with the implementation of the Internal Audit Plan ➤ Waste management review ➤ Electricity Distribution Losses Review ➤ 1st Quarter Performance Review ➤ Follow up report on the implementation status of issues previously reported ➤ Presentation of Internal Audit Methodology 	<p>Internal audit should review the budget estimates submitted by the internal audit service provider and report in the next audit committee meeting.</p> <p>Find out if there is a maintenance plan for the compactor truck and if the truck was going for normal services as scheduled.</p> <p>It was agreed that reconciliations should be done on a monthly basis</p> <p>It was recommended that for the next meeting the internal audit should test the control measurements.</p> <p>To note the report</p> <p>IA methodology is approved subject to amending proposed changes on the definition of performance audit and a definition of audit of performance information</p>	Yes Yes Yes Yes Yes Yes

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

meeting			adopted (Yes or No, if not adopted provide explanation)
08 March 2019			
	Find out if there is a maintenance plan for the compactor truck and if the truck was going for normal services as scheduled	It was confirmed that the truck has been going for the normal regular service intervals. It has gone now for 120 000 kilometres service intervals. The truck has deteriorated now significant, its compactor has a crack and management is considering replacing it. It was confirmed by the CFO that the breakdown was not caused by not taking the truck for regular services.	Yes
	Presentation of Internal Audit Reports: Supply Chain Management	It was advised that the focus should be more on controls to avoid mistakes in future and there should be a person specifically responsible for ensuring that preference point's calculations are done correctly. It was also suggested that the municipality should get Provincial Treasury for interpretation of SCM regulations. Regulation 17(1) C should be used to record all cases where SCM process where followed and the municipality could not obtain three written quotations.	Yes
	Financial Administration Revenue and Debtors Management Review	The audit committee members requested that the challenges that are system related should be addressed with the service provider by a formal letter.	Yes

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

		It was also advised that debt payment arrangements should be recorded and approved by the relevant officials.	Yes
	Maintenance of Public Amenities	The report should go back to management, get proper responses and submit in the next audit committee meeting	Yes
	2 nd Quarter Performance Review	Audit Committee was advised that the municipality has identified the challenges and busy with the process of developing a performance management process flow. In the draft of the process flow there will be a checklist that will be signed off for each evidence uploaded in the system.	Yes
	Progress report on implementation of Audit Action Plan (excluding AGSA findings)	<p>Audit Committee raised concern on audit action plan not allocating time for issues raised by AGSA particular the financial statement issues as a result Audit Committee would like interim financial statements in the next audit committee meeting. As the service provider indicated that opening balances will be ready by end of March 2019.</p> <p>The audit plan should be amended by replacing the overtime with interim financial statement review, as this review is more critical to address the adverse audit opinion received in 2017/18 financial year.</p>	<p>No, interim financial statement was not produced by the municipality</p> <p>Yes, the audit plan was revised, however, IFS was not produced by the municipality</p>

ANNUAL REPORT FOR THE YEAR ENDED 30 JUNE 2019

		<p>The audit committee wanted to know if there is enough internal support for the CFO to implement the action plan.</p> <p>When audit committee meet in May, the restated and interim financials will be provided to audit committee members for review.</p> <p>It was recommended that the municipality should respond quickly to the COAF's submitted by Auditor General.</p>	<p>Yes, It was confirmed that the service providers are appointed for three years for assisting</p> <p>No, it was stated that the deadline proved to be impossible to reach</p>
	<p>Results of the skills audit in the finance & budget section</p>	<p>The audit committee raised their concern on the skills of the managers at the finance section.</p> <p>Have a unit discussion meeting where people discuss the challenges they faced during the week, how it resolved and learn from each other.</p>	<p>No</p>
	<p>Report on electricity distribution losses as at 31 December 2018</p>	<p>It was suggested that the losses should form part of the institutional risk register and during annual risk assessment the pricing of electricity should be identified as risk.</p>	<p>Yes</p>
